Investment Objective, Financial Information and Performance Summary

2

Investment Objective

The investment objective of the Ashoka India Equity Investment Trust plc (the “Company”) is to achieve long-term capital appreciation, mainly through investments in securities listed in India and listed securities of companies with a significant presence in India.

Financial information

| | As at 30 June 2022 | As at 30 June 2021 |
|---|--------------------|--------------------|
| Net asset value (“NAV”) per Ordinary Share (cum income) | 174.2p | 158.9p |
| Ordinary Share price | 175.0p | 162.5p |
| Ordinary Share price premium to NAV ¹ | 0.5% | 2.3% |
| Net assets | £187.4million | £136.6million |

Performance summary

| | 30 June 2022 % change | 30 June 2021 % change |

Alternative Performance Measures (“APMs”)

The disclosures as indicated in the footnote above represent the Company’s APMs. Definitions of these APMs and other performance measures used by the Company, together with how these measures have been calculated, can be found on page 84.

I am pleased to present the fourth annual results of Ashoka India Equity Investment Trust plc for the period to 30 June 2022. I think it unlikely that many predicted the world would move from one global crisis straight into another, albeit the latter being completely different and brought about through the bellicose actions of one of the world's few superpowers. It takes a brave soul to become a fund manager and be responsible for the fortunes of investors' money at the best of times, but the last almost-three years have tested the abilities of the very finest.

As I have reported on previous occasions, your Board has the utmost confidence in the teams at Acorn Asset Management and White Oak Capital Management (Investment Manager and Adviser respectively) to deliver the very best performance for Shareholders over the longer term but I am also very pleased to report that, despite continued global headwinds, the Company's net asset value and share price performance were ahead of the Company's benchmark index for the year under review. Again, I must compliment the investment teams for maintaining their focus, applying due diligence and concentrating on investment principles.

Performance

The Company's net asset value (NAV) returned 9.6% over the period and the share price 7.7% against its benchmark index, the MSCI IMI, which returned 7.2% (in sterling terms). Since the Company's inception in July 2018, the NAV has increased by 75.4% and the Company's share price has increased by 73.4%, both comfortably ahead of the benchmark index which grew by 33.9% (in sterling terms). The Company's share price stood at 175.0p at the year end, a 0.5% premium to NAV.

Since the end of the Company's 2021/22 financial year, both NAV and share price have been strong; as at 3 October 2022, the latest practicable date before publication of this Report, the NAV was 204.59p and the share price stood at 215p.

Investment Policy

As the Company has grown, further opportunities to invest in well-managed businesses have presented themselves. As a result, both the Investment Manager and Investment Adviser considered it would be beneficial to Shareholders for the Board to request an amendment to the Company's Investment Policy to take advantage of such opportunities. Subsequently, after the year end, at a General Meeting held on 29 July 2022, Shareholders approved a change in the Company's Investment Policy that increased the number of portfolio investments that may be held from approximately 25-50 to approximately 50-100. There were no other changes to the Investment Policy.

Share Issuance

The Company responded to further demand from Shareholders to issue new shares, at a small premium to the prevailing net asset value. In total, 22,590,042 new Ordinary Shares (including 4,239,763 shares related to payment of the performance fee for the three-year period ended 30 June 2021) were issued during the year under review. As at the year end there were 107,567,672 shares in issue.

Dividend Policy

The Company's principal objective is to provide returns through long-term capital appreciation, with income being a secondary consideration. Therefore, Shareholders should not expect that the Company will pay an annual dividend, under normal circumstances. Whilst the portfolio does generate a small amount of income, this is used to defray running costs. However, if a sufficient surplus is generated, the Company may declare an annual dividend to maintain UK investment trust status. In the year under review, total surplus revenue amounted to £6,000. No dividend has been declared for the year ended 30 June 2022 (2021: nil).

Redemption Facility

The Company has a redemption facility through which Shareholders are entitled to request the redemption

of all or part of their holding of Ordinary Shares on an annual basis. The Redemption Point for the Ordinary Shares this year is 30 September 2022.

As announced on 5 September 2022, the total number of ordinary shares in respect of which valid redemption requests were received for this Redemption Point was 124,374, all of which were immediately placed with buyers by the Company's corporate broker, Peel Hunt.

Performance Fee

The Company renewed its contract with its Investment Manager, Acorn Asset Management Ltd, on the same terms with effect from the start of the financial year under review, namely 1 July 2021.

To remind Shareholders of the Company's fee arrangements, no annual management fee is paid; the Investment Manager, Acorn Asset Management Ltd, is remunerated solely by means of a performance fee, based on the level of performance relative to the Company's benchmark index, the MSCI IMI, over a three-year period ending 30 June 2024. Details of the performance fee can be found on page 74 of this Report.

As I said last year, the Company's portfolio is actively managed and seeks an excess return relative to its benchmark index (known as "alpha"). This investment style may lead to occasional greater volatility than the benchmark index but has produced outstanding returns for Shareholders since inception. The Board remains fully supportive of this investment approach and the renewed terms of remuneration for the Investment Manager.

For the year under review, no provision for a performance fee has been accrued.

Annual General Meeting

The Company will hold its Annual General Meeting on 8 December 2022 at the offices of Stephenson Harwood, 1 Finsbury Circus, London, EC2M 7SH, starting at 10:45 am. Given the constraints of the last two years, the Board

will be delighted to see all Shareholders who are able to attend.

Outlook

The Investment Manager's report that follows goes into its usual detail on the portfolio's performance over the last year and the challenges they faced.

2022 marks the 75th anniversary of India's independence. In that time, India has become a dynamic democracy competing on the world stage with a young, well-educated, aspirational workforce. In a direct comparison with the growth of an autocratic China, being a democracy has likely held back the pace of growth but the world is a better place for the path India has chosen to follow, albeit with the usual challenges when an emerging economy allows its people free choice.

With war in Europe exacerbating global inflationary pressures and supply line shortages, the Modi government continues to successfully tread a fine line between competing global interests; it imports approximately 85% of its oil requirements but, at the same time, wants and needs to maintain and grow its trade globally.

Opinion polls suggest the Modi government looks set to be returned to power in 2024. Modi retains a business-friendly approach and it's arguable that continued stability has material benefits for an entrepreneurial nation seeking to escape the tag "emerging".

This will take time but the innovative investment options presenting themselves to the Company's management team are only likely to increase in the coming years, thus further enhancing the possibility of capital growth for Shareholders over the longer term. It is gratifying from my perspective to be able to reassure Shareholders that strong corporate governance and research both continue to play prominent roles when selecting investments for the Company's portfolio.

We all hope that 2023 will see an easing of hostilities in Europe, restored supply lines, reduced inflationary pressures and lower interest rates. Not too much to hope for, surely? If achieved, the signs are already emerging that India's economy will gather strength as the world returns to growth.

As ever, thank you for being a shareholder in Ashoka India. The Investment Manager and Adviser remain as dedicated as ever to their task and your Board equally confident in their ability to produce top quality returns for Shareholders over the longer term.

Andrew Watkins
Chairman

5 October 2022

Market Review

The MSCI India Investable Market Index (“MSCI India IMI Index (in sterling terms)”) was up by 7.2% during the year to 30 June 2022, outperforming both the developed as well as emerging markets. In the same period the S&P 500 returned 0.9%, the MSCI World Index was down by 2.9%, and the MSCI Emerging Markets Index was down by 15.3% (all in sterling terms). Crude oil prices increased by 77.1% and the Indian rupee depreciated by 5.8%. Amongst sectors, utilities, energy, and real estate outperformed whilst healthcare, materials and financials underperformed.

Performance Review

The Company has delivered a sterling NAV total return of 9.6% during the year, outperforming the benchmark MSCI India IMI (in sterling terms) by 2.4%.

Overall, despite a turbulent market environment, the portfolio has outperformed during the year given that it is very well diversified and balanced across both cyclical and counter-cyclical sectors, while consciously avoiding market timing, sector rotation and other such top-down bets.

Key contributors & detractors

Contributors

Laxmi Organic Industries is a specialty chemicals company and amongst the largest and lowest cost manufacturers of Ethyl Acetate, with approximately 30% market share in India. It is now venturing into high value-added businesses such as niche products and chemistries. After the acquisition of Clariant's business unit in 2010, it is the only manufacturer of diketene derivatives in India. Additionally, the company is expanding into another platform by acquiring Miteni in Italy, a niche fluorochemical manufacturer with a unique portfolio of products. The profit contribution from value-added, high margin business is expected to increase materially from 55% in 2020 to 80% in 2025. The stock appreciated during the year due to the company's expanding profit margins and robust operating performance.

Persistent Systems is a mid-sized IT services company with deep domain expertise in healthcare, life sciences and financial services verticals, and a niche positioning in adjacent areas such as health-tech and fin-tech. The company has forged strong partnerships with leading enterprise software ecosystems such as Salesforce, Appian, and Snowflake. It also has strong capabilities in product engineering services with the likes of IBM, CISCO, Intuit and Dassault Systems as key customers. The business has de-risked its revenue base, lowered client concentration and increased the number of its large accounts. The stock has outperformed due to strong growth outlook with several margin levers which will drive healthy free cash flow growth over the coming years.

ICICI Bank is one of the leading private sector banks in India. Given the under-penetration of credit, the Indian banking sector offers a long runway for growth. Well run private sector banks, like ICICI Bank, are gaining market share from poorly run government owned banks, which account for two thirds of the industry. Following a leadership change in 2018, the new management team is leveraging on the wide distribution franchise, a new risk-based pricing approach and digital offerings to accelerate market share and return ratios. ICICI Bank continues to improve its margin and core profitability whilst decreasing the Non-Performing Assets. The stock outperformed on the back of this continued strong operating performance.

Detractors

Truecaller is a leading technology company that provides consumer and business identity verification services. It has built a dominant market share of approximately 80% in India over the past decade on the back of sustained strong growth and has become a category-defining brand in the process. It also has leadership positions in other emerging markets such as Egypt and Nigeria, and is a challenger in Indonesia and Malaysia. The company has started monetizing its highly engaged user base by ramping up ad-impressions, which has significant headroom for expansion. Innovative products such as value-add

premium subscriptions for consumers, and enterprise verification solutions for businesses are driving rapid growth in core geographies, even as it gains market share in newer countries. It is a highly profitable business run by credible technology entrepreneurs from Sweden. It was one of the best performing stocks in the portfolio in 2021, but its share price declined sharply in 2022 amidst the global sell-off in technology stocks.

Metropolis Healthcare is one of the leading players in the diagnostic space with a dominant presence in key cities such as Mumbai, Pune, and Bangalore. The company offers a comprehensive range of over 4,000 clinical laboratory tests and profiles. It also has a wide network of 64 Satellite labs, capable of conducting routine and semi-specialized tests, and 47 express labs for conducting routine tests. Over the last few years, the company has increased its focus on the more profitable Business to Consumer segment, whilst expanding its collection centre network nearly ten-fold to 2,500. The recent underperformance was led by lower-than-expected Covid testing volumes and slower execution in a key government contract.

Cartrade is the leader in Business to Business (“B2B”) auctions of used vehicles and the number two player in online auto classifieds in India. The B2B auctions segment is driven by a shift towards organised technology led platforms offering an omnichannel experience and expansion in the share of used vehicles within the installed base. Growth in the online auto classifieds segment is driven by under-penetration of digital advertisement spends, market share gains from offline advertising mediums and a structural increase in car ownership. A profitable duopoly market structure presents scope for good operating leverage and margin expansion. The company’s leadership team has decades of experience in the automotive and technology sectors. CarTrade has several growth options, including cross-selling insurance & loans products and providing repair & maintenance services. The stock underperformed during the year due to concerns around increased competitive intensity.

Investment Outlook

The sharp recovery in equity markets in 2021 was punctuated by a volatile start to 2022 with geopolitical tensions resulting in a supply squeeze leading to near-record high resource prices, monetary tightening by global central banks, and fears of a recession in the US and Europe.

Despite the rising concerns over sharp input cost inflation and global growth slowdown, India’s high frequency indicators continue to remain healthy. The Manufacturing Purchasing Managers’ Index (“PMI”) remained in an expansionary zone, averaging at 54.2 between June 2021 to June 2022. The Index of Industrial Production (“IIP”) was up by 8% year on year, and the core sector grew by 14% over the last year to June 2022. The latest survey by the central bank, The Reserve Bank of India, indicates improving utilisation levels, which along with accelerating end demand, is leading to higher capacity additions across sectors. Management guidance for capacity expansion is higher than pre-Covid levels for sectors such as automotives, cement, and metals.

While private sector capital expenditure (“capex”) is indicating early signs of revival, government’s spend on roads, railways, defence, and housing have remained buoyant. In this context, it is worth highlighting the key takeaways from the financial year 2023 (year ending March 2023) budget announced in February 2022. Whilst the budget signalled policy continuity with a thrust on capex, additional announcements were made towards enhancing the ease of doing business and boosting exports and manufacturing. There was an added emphasis on new areas such as sustaining digital ecosystems and urbanisation. The budget follows the previously announced measures by the government to improve the ease of doing business in India. In addition, there is an added emphasis on digitisation, and streamlining the compliance process. Overall, tax collections have been ahead of the usual run rate and this is likely to support higher government spending on infrastructure. In this regard, investors will keenly monitor the progress of the US\$80 billion National Monetisation Pipeline program.

Rising energy prices have been a cause of concern globally. However, a greatly underappreciated aspect of this has been the structurally declining vulnerability of Indian economy to rising crude oil prices. India imports 85% of its crude oil requirements and this has attracted much attention over the years. Nevertheless, there is little evidence to suggest that India is disproportionately affected by rising oil prices – the sensitivities of macro variables to oil prices are in-line with what is observed for most other emerging market economies.

In any case, our view is that it is logical to expect that the impact of higher oil prices on macroeconomic variables plays out in a continuum, and no specific price point can be considered as a particularly bad threshold. Furthermore, the vulnerability of these macro variables at a given oil price level has reduced materially over the years due to faster economic growth and more exports than oil consumption. If one were to take a specific level of Current Account Deficit ("CAD") to Gross Domestic Product (e.g., 2%) as a benchmark, then the price of oil at which such CAD level is estimated to be breached has been rising over time. At the turn of the century, this oil price threshold was considered to be US\$40 per barrel of crude oil and is now estimated to be in the range of US\$90 – \$100 per barrel. However, perception might take longer to catch up. Furthermore, an adequate level of foreign exchange reserves (US\$574 billion as of June 2022, nine months import cover) provides policy levers to navigate the prevailing macro environment.

The pandemic and geopolitical tensions over the last few years have accelerated supply chain diversification across various industries, a phenomenon that has already been underway for many years. Heightened boardroom focus on supply chain flexibility at Fortune 500 companies bodes well for market share gain by the Indian manufacturing sector. Our interactions with corporates in both listed and unlisted segments suggest that inquiry levels and focus on order books are healthy, despite the lingering supply chain issues. There is also early evidence of India benefiting from disruptions in China, with India's market share of US imports rising to 2.0% from 1.6% two years prior. Despite the recent

strong growth, India's global share in many sectors such as chemicals and engineering goods is still small (approximately 2% to 4%). Even a 1% to 2% incremental market share gain from China, could result in high-teens growth rates for these sectors.

India's exports remained a bright spot with 25.6% growth on a two-year Compound Annual Growth Rate ("CAGR") basis (between June 2020 to June 2022). This has been supported by tailwinds such as: a faster pace of formalization catalysed by The Goods and Services Tax; the government's focus on 'Make in India' with the implementation of a US\$30 billion Production Linked Incentive scheme, changing global trade dynamics which includes diversification of supply chains away from China; and favourable demographics with a technically skilled labour force.

The recent uptick in inflation (7.8% in April, 7.0% in May and 6.7% in June) prompted the Reserve Bank of India ("RBI") to hike the repo rate by 0.4% in an off-cycle policy meeting in May, followed by a 0.5% increase in the June and August monetary policy meetings. To reduce the pass-through of elevated global prices into domestic inflation, the government announced measures such as lowering excise duties on diesel and petrol, restricting agricultural exports and increasing fertilizer subsidies. Despite the near-term spike, India's Consumer Price Index is not much above the upper end of the RBI's tolerance band (between 2% and 6%). Besides, India's core services inflation is at a reasonably contained level of approximately 4%. With monetary and fiscal policy working in tandem, India's inflation trajectory should remain under control over the medium term.

India's corporate earnings continue to be strong. Nifty earnings for the financial year 2022 grew by 33% year-on-year, at its highest pace since 2004. Earnings are further projected to grow by 16% CAGR for the next two years. In the context of rising concerns about global growth, it is worth re-iterating that given its well-diversified corporate mix, India's earnings have generally been more resilient than its emerging market peers during previous downcycles.

Several portfolio companies have experienced steep input cost inflation, but as has been the case, these companies tend to be market leaders and have been better positioned to navigate an inflationary environment. Historically, in our observation, commodity price fluctuations are passed through the food chain and absorbed by consumers, with hardly any lasting effect on business economics or value.

We put particular emphasis on the corporate governance standards of the companies we evaluate. We qualitatively screen out companies where we believe corporate governance is below average or otherwise of an unacceptable standard. This approach has helped us circumvent many recent corporate governance disasters.

We employ significant research resources to build a deep understanding of various business models across emerging and developed markets (including engaging with experts and industry professionals from across the world) and to track Environmental Social and Governance (ESG) issues. More detail on this can be found within the ESG Policy on page 18. The outperformance against both the MSCI India IMI Index (in sterling) and the peer group across various market cycles has been due to the balanced portfolio construction approach, which ensures that alpha generation is a function of stock selection rather than sector rotation or other top-down bets.

In closing, we remain cautiously optimistic and continue to believe the structural growth drivers of the Indian economy are deep rooted and, near-term challenges notwithstanding, India presents an attractive long-term investment opportunity.

Following the Company's year end, Shareholder approval was obtained on 29 July 2022 to make an amendment to the Company's Investment Policy. The updated Investment Policy can be found below and further information on the amendment is included on page 28.

Investment Policy

The Company shall invest primarily in securities listed on any recognised stock exchange in India and securities of companies with a Significant Presence in India that are listed on stock exchanges outside India. The Company may also invest up to 10 per cent. of Gross Assets (calculated at the time of investment) in unquoted companies with a Significant Presence in India.

A company has a "**Significant Presence in India**" if, at the time of investment, it has its registered office or principal place of business in India, or exercises a material part of its economic activities in India.

The Company shall primarily invest in equities and equity-related securities (including preference shares, convertible unsecured loan stock, rights, warrants and other similar securities). The Company may also, in pursuance of the investment objective:

- hold publicly traded and privately placed debt instruments (including bonds, notes and debentures);
- hold cash and cash equivalents including money market liquid/debt mutual funds;
- hold equity-linked derivative instruments (including options and futures on indices and individual securities);
- hedge against directional risk using index futures and/or cash;
- hold participation notes; and
- invest in index funds, listed funds and exchange traded funds.

Notwithstanding the above, the Company does not intend to utilise derivatives or other financial instruments to take short positions, nor to increase the Company's gearing in excess of the limit set out in the borrowing policy, and any restrictions set out in this investment policy shall apply equally to exposure through derivatives.

The Company will invest no more than 15 per cent. of Gross Assets in any single holding or in the securities of any one issuer (calculated at the time of investment) and will typically invest no more than 40 per cent. of Gross Assets in any single sector (calculated at the time of investment).

The Company is not restricted to investing in the constituent companies of any benchmark. It is expected that the Company's portfolio will comprise approximately 50 to 100 investments although, in order to allow the Investment Manager and Investment Adviser flexibility to take advantage of opportunities as they arise, the portfolio may occasionally comprise holdings outside of this range.

In order to comply with the Listing Rules, the Company will not invest more than 10 per cent. of Gross Assets in other listed closed-ended investment funds, except that this restriction shall not apply to investments in listed closed-ended investment funds which themselves have stated investment policies to invest no more than 15 per cent. of their gross assets in other listed closed-ended investment funds. Additionally, in any event the Company will itself not invest more than 15 per cent. of its Gross Assets in other investment companies or investment trusts which are listed on the Official List.

The Company does not expect to take controlling interests in investee companies and will at all times invest and manage the portfolio in a manner consistent with spreading investment risk and in accordance with the FPI Regulations and applicable law.

It is expected that the Company's investments will predominantly be exposed to non-Sterling currencies (principally Rupees) in terms of their revenues and profits. The base currency of the Company is Sterling,

which creates a potential currency exposure. Whilst the Company retains the flexibility to do so, it is expected in the normal course that this potential currency exposure will not be hedged using any sort of foreign currency transactions, forward transactions or derivative instruments.

Borrowing policy

The Company may deploy gearing to seek to enhance long-term capital growth and for the purposes of capital flexibility and efficient portfolio management. The Company may be geared through bank borrowings, the use of derivative instruments that have the effect of gearing the Company's portfolio, and any such other methods as the Board may determine. Gearing will not exceed 20 per cent. of Net Asset Value at the time of drawdown of the relevant borrowings or entering into the relevant transaction, as appropriate.

No material change will be made to the investment policy without the approval of Shareholders by ordinary resolution.

Asset allocation at period end

The breakdown of the top ten holdings and the industrial classification of the portfolio at the Company's year end are shown on page 10.

Dividend policy

The Board intends to manage the Company's affairs to achieve Shareholder returns through capital growth rather than income. Therefore, it should not be expected that the Company will pay an annual dividend.

Regulation 19 of the Investment Trust (Approved Company) (Tax) Regulations 2011 provides that, subject to certain exceptions, an investment trust may not retain more than 15 per cent. of its income in respect of each accounting period. Accordingly, the Company may declare an annual dividend from time to time for the purpose of seeking to maintain its status as an investment trust.

Results and dividend

The Company's revenue surplus after tax for the year amounted to £6,000 (30 June 2021: revenue surplus of £55,000). The Company made a capital surplus after tax of £9,218,000 (30 June 2021: capital surplus of £40,299,000). Therefore, the total surplus after tax for the Company was £9,224,000 (30 June 2021: surplus of £40,354,000).

The amended ITC regulations by the Investment Trust (Approved Company) (Tax) (Amendment) Regulations 2013 (SI 2013/1406) allows an investment trust with an accumulated deficit on revenue reserves brought forward to utilise this against a revenue surplus in an accounting period. The Board is therefore proposing that no dividend be paid in respect of the year ended 30 June 2022.

Key performance indicators ("KPIs")

The Board measures the Company's success in attaining its investment objective by reference to the following KPIs:

(i) Achievement of NAV and share price growth over the long term

The Board monitors both the NAV and share price performance and compares them with the MSCI India IMI Index (in sterling) and other similar investment trusts. A review of performance is undertaken at each quarterly Board meeting and the reasons for relative under and over performance against various comparators is discussed. The Company's NAV and share price total returns for the year to 30 June 2022 were 9.6% and 7.7% (30 June 2021: 52.6% and 65.0%) respectively compared to a total return of 7.2% (30 June 2021: 45.2%) for the MSCI India IMI Index (sterling).

The Chairman's statement on pages 3 to 5 incorporates a review of the highlights during the year. The Investment Manager's Report on pages 6 to 9 highlights investments made during the year and how performance has been achieved.

(ii) Maintenance of a reasonable level of premium or discount of share price to NAV

The Company's Broker monitors the premium or discount on an ongoing basis and keeps the Board updated as and when appropriate. At quarterly Board meetings the Board reviews the premium or discount in the period since the previous meeting in comparison with other investment trusts with a similar mandate. The Company has a redemption facility through which Shareholders will be entitled to request the redemption of all or part of their holding of Ordinary Shares on an annual basis. The Company's shares traded at a premium of 0.5% on 30 June 2022 (30 June 2021: premium of 2.3%).

(iii) Maintenance of a reasonable level of ongoing charges (excluding performance fee)

The Board receives monthly management accounts which contain an analysis of expenditure, and these are formally reviewed at quarterly Board meetings. The Management Engagement Committee formally reviews the fees payable to the Company's main service providers on an annual basis. The Board reviews the ongoing charges on a quarterly basis and considers these to be reasonable in comparison to the Company's peers.

Based on the Company's average net assets during the year ended 30 June 2022, the Company's ongoing charges figure calculated in accordance with the AIC methodology was 0.5% (30 June 2021: 0.5%).

Principal and emerging risks and uncertainties

| Description | Mitigation |
|---|--|
| <p>Economic and market conditions</p> <p>Changes in general economic and market conditions in India including, for example, interest rates, cost increase, rates of inflation, industry conditions, competition, political events and trends, tax laws, national and international conflicts and other factors could substantially and adversely affect the Company's prospects.</p> <p>Weak economic and market conditions in Europe and the US may lead to foreign disinvestment in Indian equities (the "flight to quality").</p> | <p>The Investment Advisor has a proven and extensive track record with a focus on good corporate governance and will monitor the position and report regularly to the Board on market developments.</p> <p>India is to a degree protected from global economic downdrafts and increases in world inflation as it is a relatively closed economy and not as vulnerable to high and rising energy prices as in the past. Whilst not immune from disrupted global trade, India may benefit from a change of supply lines from, in particular, China. In addition, India is not saddled with the debt problems of Europe and the US and the currency should therefore remain stable or appreciate against the currencies of its main trading partners.</p> <p>The Investment Advisor has a proven and extensive track record and, together with the broker has an active and regular dialogue with Shareholders.</p> <p>Relevant disclosures have been made in the Prospectus.</p> |
| <p>Sectoral diversification</p> <p>Concentration of investments in any one sector may result in greater volatility in the value of the Company's investments and consequently its NAV and may materially and adversely affect the performance of the Company and returns to Shareholders.</p> | <p>The Company's investment policy states that no single holding will represent more than 15% of the Company's Gross Assets and no more than 40% of Gross Assets will be invested in any single sector (calculated at the time of investment).</p> <p>From 29 July 2022 the investment policy was changed to allow approximately 50 to 100 stocks to be held in the portfolio to assist with diversification.</p> <p>Whilst the Company does not have a benchmark, the Board measures performance for reference purposes against the MSCI India IMI Index (in sterling). The Board also monitors performance relative to the Company's peer group over a range of periods, taking into account the differing investment policies and objectives.</p> |

| Description | Mitigation |
|---|---|
| <p>Corporate governance and internal control risks (including cyber security)</p> <p>The Board has contractually delegated to external agencies the management of the investment portfolio, the custodial services (which include the safeguarding of the assets), the registration services and the accounting and company secretarial services.</p> <p>The main risk areas arising from the above contracts relate to allocation of the Company's assets by the Investment Manager, and the performance of administrative company secretarial, registration and custodial services. These could lead to various consequences including the loss of the Company's assets, inadequate returns to Shareholders and loss of investment trust status. Cyber security risks could lead to breaches of confidentiality, loss of data records and inability to make investment decisions.</p> | <p>Each of these contracts were entered into after full and proper consideration of the quality and cost of services offered, including the financial control systems in operation in so far as they relate to the affairs of the Company. All of the above services are subject to ongoing oversight of the Board and the performance of the principal service providers is reviewed on a regular basis. The Board monitors key personnel risks as part of its oversight of the Investment Manager. The Company's key service providers report periodically to the Board on their control procedures including those in respect of cyber security risks.</p> |
| <p>Regulatory risks</p> <p>Breaches of Section 1158 of the Corporation Tax Act could result in loss of investment trust status. Loss of investment trust status would lead to the Company being subject to tax on any gains on the disposal of its investments. Breaches of the Financial Conduct Authority ("FCA")'s rules applicable to listed entities could result in financial penalties or suspension of trading of the Company's shares on the London Stock Exchange ("LSE"). Breaches of the Companies Act 2006, The Financial Services and Markets Act, The Alternative Investment Fund Managers' Directive, Accounting Standards, The General Data Protection Regulation, The Listing Rules, Disclosure Guidance and Transparency Rules and Prospectus Rules could result in financial penalties or legal proceedings against the Company or its Directors. Failure of the Investment Manager to meet its regulatory obligations could have adverse consequences on the Company.</p> | <p>The Company has contracted out relevant services to appropriately qualified professionals. The Investment Manager and the Company Secretary report on regulatory matters to the Board on a quarterly basis. The assessment of regulatory risks forms part of the Board's risk assessment programme.</p> |
| <p>Financial risks</p> <p>The Company's investment activities expose it to a variety of financial risks which include foreign currency risk and interest rate risk.</p> | <p>The investment policy states that while the Company retains the flexibility to do so, it is expected in the normal course of business that currency exposure will not be hedged. The Company does not currently have any borrowings, therefore is not exposed to interest rate risk. The Company's financial risks are disclosed in note 15 to the financial statements.</p> |

| Emerging risks | |
| <p>ESG and Climate Change The Company could suffer as a result of increased investor demand for products which promote ESG investments.</p> | <p>In making investment decisions, the Investment Manager considers qualitative measures, such as the environmental and social impact of a company as well as financial and operational measures.</p> |
| <p>Climate change leads to additional costs and risks for portfolio companies.</p> | <p>The Company's ESG Policy, found on page 18, is updated annually and is published on the Company's website. The ESG Policy includes ESG factors that are considered in the investment process where they are relevant and have a material impact on stock performance. It also includes information regarding the proprietary rating framework developed by the Investment Adviser to assess companies on ESG metrics. The framework consists of a sector-specific hierarchy of key Environmental and Social factors, against which a sector company is assessed based on its practices and disclosures. The Investment Adviser prioritises dialogue with companies that have greater scope for improvement in disclosures and/or practices.</p> |
| <p>Extreme weather events could potentially impair the operations of individual investee companies, potential investee companies, their supply chains, and their customers.</p> | <p>The Investment Manager takes such risks into account, along with the downside risk to any company (whether in the form of its business prospects, market valuation or sustainability of dividends) that is perceived to be making a detrimental contribution to climate change. The Company invests in a broad portfolio of businesses with operations spread across India, which should limit the impact of location specific weather events. The Investment Manager also closely monitors the businesses which have a greater exposure to climate change related risks and their progress towards a low-carbon dioxide transition.</p> |
| <p>Potential reputational damage from non-compliance with regulations or incorrect disclosures.</p> | <p>Investment trusts are currently exempt from the Task Force on Climate-Related Financial Disclosures ("TCFD") disclosure, but the Board will continue to monitor the situation.</p> |
| <p>Potential reputational damage from non-compliance with regulations or incorrect disclosures.</p> | <p>The Board has adopted a policy of fostering high standards of corporate governance in all its activities. This principle is the cornerstone of creating and preserving long term shareholder value. The Company Secretary and AIFM regularly report to the Board any changes in the regulatory environment.</p> |

| Description | Mitigation |
|--|---|
| <p>Impact of War/Sanctions</p> <p>The impact of Russia's invasion of Ukraine on the Company's portfolio of investments and any future prolonged and deep market decline which would likely lead to falling values in the Company's investments or interruptions to cashflow.</p> <p>The extent and impact of military action, resulting sanctions and further market disruptions is difficult to predict which increases uncertainty and challenges confidence in financial markets. This could lead to a recession if the conflict were to move towards a broader regional or global conflict.</p> | <p>The Company does not have any direct or indirect exposure to investments in Ukraine or Russia. There are also no direct business relationships with counterparties from these countries.</p> |

Environmental, Social and Governance (“ESG”) Policy

As an investment company with no employees, property or activities outside investment, environmental policy has limited application. The Company’s Investment Adviser White Oak Capital Partners (“White Oak Capital” or the “Investment Adviser”) considers various factors when evaluating potential investments, and as such the Board and the Company have adopted the Investment Adviser’s ESG Policy below.

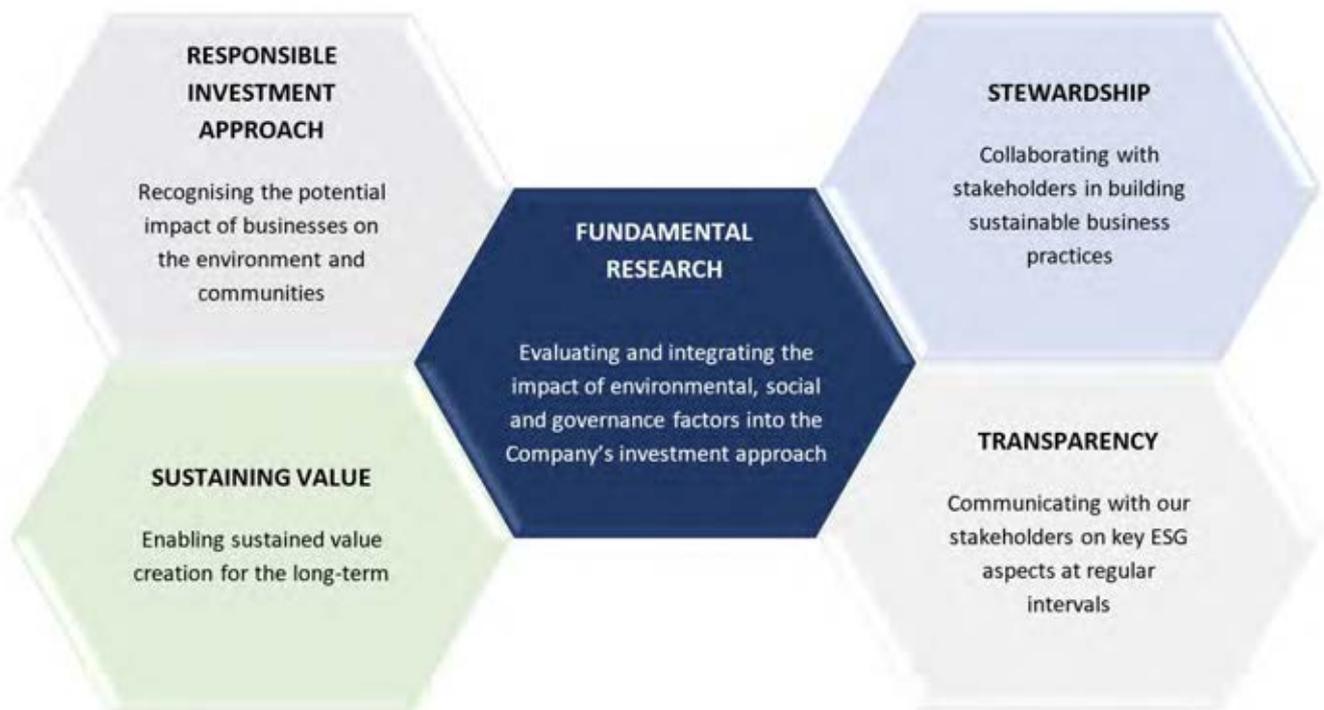

Sustainability of returns and corporate governance form an important element of the Company’s investment philosophy. Thus, our investment approach naturally integrates ESG factors in our decision-making process. The Company values businesses that follow industry-leading environmental compliance practices and that demonstrate ethical business conduct and fair dealings with stakeholders. The Company believes

that a sustainable investment strategy preserves long-term shareholder and stakeholder value by balancing financial and commercial analysis with sound ESG practices serving a wider community.

As part of the Company’s commitment to responsible investing we are pleased that White Oak Capital is a signatory to The United Nations-backed Principles for Responsible Investment Initiative (PRI).

ESG Investment Approach

The Board and the Investment Adviser believe in a holistic sustainable framework driven by the Company’s guiding principles, which helps to integrate the tenets of sustainable business practices into the investment approach:

The Company’s ESG framework is designed to evaluate ESG issues through three fundamental facets: Policy, Risk Management and Strategy. Investee and potential investee companies are evaluated on their commitment

to manage ESG issues effectively as well as integrating ESG into their risk management process and on their approach to making ESG a strategic priority.

ESG Integration and Engagement

The assessment of ESG aspects is integrated into both the investment research and valuation processes. The Investment Adviser focuses on identifying the relevant ESG aspects in each of the underlying businesses, understanding the key ESG risks, evaluating systems and controls for monitoring such ESG risks, and assessing performance against the ESG parameters.

As part of the overall process, the perspectives of the investment analysts, management team, and third-party discussions are combined to form a holistic view of investee and potential investee companies and the issues they face. This process helps the Investment Adviser to understand the ESG data to identify relevant information and to address the key issues identified through the framework, which forms the basis of engagement with the companies we invest in on ESG topics.

The Investment Adviser has developed a proprietary rating framework ("ABLEx": Assessment of Business Longevity & Excellence) to assess companies on ESG metrics. The framework consists of a sector-specific hierarchy of key Environmental and Social factors, against which a sector company is assessed based

on its practices and disclosures. For the governance aspect, extensive checks are completed to avoid companies with poor corporate governance, which could manifest in various forms such as siphoning of cash or value, manipulation of stock prices, unethical business practices or misaligned interests. The ABLE framework is a completely bottom-up process which captures relevant qualitative and quantitative ESG details from the public domain. An engagement plan is devised by prioritizing dialogue with companies with more scope for improvement in disclosures and/or practices.

The common engagement agenda and desired outcome includes, but is not limited to:

- (a) driving awareness and understanding of key ESG issues;
- (b) encouraging better, relevant disclosures;
- (c) understanding the company's ESG roadmap;
- (d) corroborating independent findings; and
- (e) follow-up on the status of any ongoing controversies.

Environmental, Social and Governance (“ESG”) Policy

20

(continued)

The engagement plan includes management meetings, company and plant visits and voting on company resolutions.

ESG Case Studies

Example case studies can be found below, demonstrating our Investment Adviser’s approach to engagement with investee companies, with the objective of improving their overall ESG practices and policies:

Case Study 1: The Investment Adviser engaged with a leading logistics and supply chain company over their current greenhouse gas (“GHG”) emissions, their targets to curb GHG emissions and efforts to reduce fleet emissions and improve fuel efficiency performance. The company responded positively with a commitment to disclose GHG emissions data for 2021 and 2022 and to set reduction targets. The company is in the process of measuring GHG emissions, for which they have engaged an external consultant. The company also explained its efforts to reduce fleet emissions and improve fuel efficiency, such as migrating to more efficient trucks, piloting 2-3-wheeler electric vehicles across the first mile, periodic tyre rotation, among others.

Case Study 2: For one of the leading pharmaceuticals companies, the team focused on waste disposal and product safety as material factors. The company performed well in waste management having a target to become zero waste landfill by 2025. However, the company lagged in product safety as it received observations from the US Food and Drug Administration (“FDA”). The company is working closely with the FDA to address the issue within a stipulated timeframe. Hence, an amber flag has been assigned to product safety factor and the team is monitoring the progress. Other factors addressed by the team included GHG emissions, resource optimization, energy efficiency and human capital. The Investment Adviser also reviewed the company’s policies and practices to ensure they were satisfactory.

Case Study 3: For one of the leading paint companies, the team assessed resource optimization and greenhouse gas emissions as the critical indicators of sustainability. The company exhibits strong performance on all evaluation parameters such as GHG emissions, resource utilization, human capital, and waste management. The company has been able to decrease its specific water consumption over the last three years with all of its decorative manufacturing sites being zero liquid discharge facilities. Its emissions intensity also declined during 2022, primarily due to energy efficiency initiatives as well as sustained investments in renewable energy. The performance incentive to senior management is linked to ESG targets, signalling the company’s long-term commitment to sustainability.

Approach to Climate Change

The implications of climate change are creating rapidly changing regulations and consumer demands around the world. Mitigation of climate change and reduction of greenhouse gas emissions are now widely perceived as major global challenges. Governments, businesses, and investors have a responsibility towards ensuring a climate-resilient economy.

The Investment Adviser supports the recommendations of the Task Force on Climate-related Financial Disclosures and promotes increased transparency, encourages the development of tools and methods to manage climate-related risks and opportunities and contributes to the best practices in the industry. Businesses which have a greater exposure to climate change related risks and their progress towards a low-carbon transition are closely monitored.

Company values

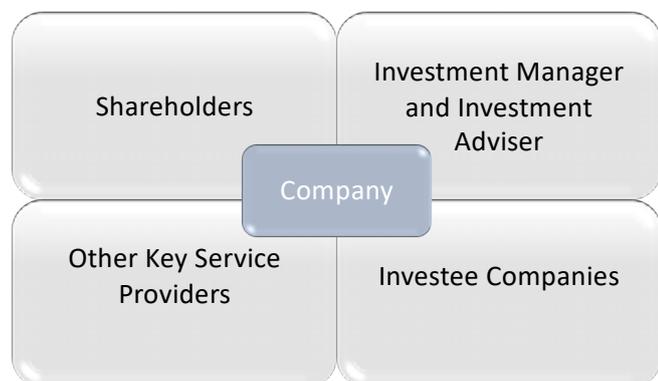

The Board has adopted a policy of fostering high standards of corporate governance in all its activities. This principle is the cornerstone of creating and preserving long term shareholder value.

This section of the Annual Report covers the Board’s considerations and activities in discharging their duties under s.172(1) of the Companies Act 2006, in promoting the success of the Company for the benefit of its members as a whole.

The Directors have a duty to promote the success of the Company for the benefit of Shareholders as a whole and to describe how this duty has been performed. In undertaking this duty, the Directors consider the likely consequences of their decisions in the long term and on other stakeholders and the environment.

Key stakeholders

The Company is an externally managed investment company and therefore it does not have any employees or customers in the conventional sense. The Board performs its role as outlined in the schedule of matters reserved for the Board and taking into account the interests of the key stakeholders. This schedule is available for inspection at the registered office of the Company and on the Company’s website at <https://ashokaindiaequity.com>. The key stakeholders are identified in the diagram below:

The Board is cognisant of the need to foster the Company’s business relationships with its key stakeholders through its stakeholder engagement activities as described below.

Stakeholder engagement

The Company’s Ordinary Shares commenced trading on the London Stock Exchange (“LSE”) on 6 July 2018. The Board is mindful that there should be an active, liquid market in the Company’s shares. As a closed-ended fund listed on the Premium segment of the LSE main market, reasonable liquidity is expected in normal market conditions. The Board recognises the importance of Shareholders being able to sell at a price that is not disadvantageous to them and the premium/discount to net asset value at which the Company’s Ordinary Shares trade is continuously monitored. Aware of shareholder demand, the Board has established a share issuance programme whereby during the year, 18,350,279 new shares have been issued by way of block listing, (excluding 4,239,763 shares issued in settlement of the performance fee) generating additional funds of £35,954,000. During the year, the Company made three block listing applications, one for 10,000,000 new Ordinary Shares on 15 November 2021, another for 5,000,000 new Ordinary Shares on 21 March 2022 and one for another 5,000,000 shares on 21 June 2022. These block listing applications give the Company authority to issue new Ordinary Shares on a non-pre-emptive basis. The Ordinary Shares may be issued inter alia to satisfy market demand and for the purposes of managing the premium to net asset value (cum income) per Ordinary Share at which the Ordinary Shares are trading.

The Company has a redemption facility through which Shareholders will, provided normal market conditions prevail, be entitled to request the redemption of all or part of their holding of Ordinary Shares on an annual basis allowing Shareholders to realise their investment. This annual redemption facility is subject to the final approval of the Board. On 5 September 2022, the Company announced that 124,374 valid redemption requests had been received for the 30 September 2022

Redemption Point (representing 0.1% of the issued share capital at that point).

Shareholder engagement

The Board actively promotes engagement with the Company's Shareholders through various channels. The Board encourages all Shareholders to attend and vote at the AGM; the AGM typically includes a presentation from the Investment Manager and provides an opportunity for Shareholders to engage directly with the Board and the Investment Manager. The Board maintains regular contact with Shareholders through the Investment Adviser and Broker's programme of Shareholder meetings. Both report back to the Board on their findings, questions, or concerns for the Board's consideration. Due to COVID-19, the Company's AGM in December 2020 was held as a closed meeting. The Board was therefore pleased to resume convening the Company's AGM as an open meeting for the year ended 30 June 2021 and all Shareholders were invited and encouraged to attend.

The Company communicates with Shareholders through its half-yearly and annual financial reports and other announcements which together provide Shareholders with a comprehensive insight into the Company's progress and results. Shareholders are encouraged to visit the Company's website (www.ashokaindiaequity.com) where they can find useful information and documents such as monthly factsheets, investment research, interviews with the Manager and the annual and half-yearly financial reports.

In addition, the Company employs Kepler Partners (www.trustintelligence.co.uk) to undertake research, providing detailed analysis of the Company and the markets in which it operates for professional advisers and other registered users.

Investment Manager and Investment Adviser

The Company's business model is such that it has no employees and relies on services provided by third party providers to manage the Company's operations.

The Investment Manager and Investment Adviser are the most significant service providers to the Company and a description of their roles can be found on page 29. As permitted by the terms of the Investment Management Agreement, the Investment Manager has, with the consent of the Company, appointed the Investment Adviser, White Oak Capital Partners, a boutique investment advisory firm, to provide certain non-binding, non-exclusive and recommendatory investment advisory services.

With effect from 29 April 2022, with the permission of the Board, the Company's Investment Manager Acorn Asset Management Limited, shifted its advisory mandate to White Oak Capital Partners (Singapore) from White Oak Capital Management Consultants LLP (India). White Oak Capital Partners and White Oak Capital Management are both part of the White Oak Group, and the terms of appointment of White Oak Capital Partners are the same as those that applied to White Oak Capital Management. The relocation allows all the senior team members of the Investment Adviser based in Singapore to be more actively involved in marketing activities of the Company, which could be otherwise constrained due to regulatory reasons. Moreover, White Oak Capital Partners continues to leverage non-binding, recommendatory investment advisory services provided by White Oak Capital Management. White Oak Group has amongst the most well-resourced and seasoned research team compared to other India dedicated managers and the domestic asset management companies. They also continue to invest well ahead of their peers in strengthening their on the ground presence. In order to effect the change of Investment Adviser, the Company and the Investment Manager agreed to amend and restate the Investment Management Agreement between them; however, the terms of that agreement were not materially changed.

The Board receives regular reports from the Investment Adviser, discusses the portfolio at each Board meeting and maintains a constructive dialogue between meetings. A representative of the Investment Manager and the Investment Adviser attend all Board meetings. The Investment Manager's remuneration is by way of

a performance fee subject to the Company delivering excess returns above the MSCI India IMI Index in the medium-term, which aligns the Investment Manager's interests with those of Shareholders. The Management Engagement Committee reviews the performance of the Investment Manager, its remuneration and discharge of its contractual obligations at least annually.

The Investment Manager and Investment Adviser remained fully operational throughout COVID-19 restrictions and focused on providing a seamless service to clients and Shareholders whilst ensuring the well-being of their staff.

Other Key Service Providers

In ensuring the smooth operation of the Company, the Board also monitors the performance of its other service providers such as the Company's Broker, Administrator, Company Secretary and Custodian (details of the activities of the Management Engagement Committee are outlined on pages 36 and 37) and maintains regular contact through direct reports at Board meetings or through the Company Secretary.

The Board engaged frequently with service providers throughout the COVID-19 pandemic to ensure that they continued to meet their obligations and had resilient business continuity plans in place.

In maintaining the Company's reputation and high standards of business conduct, the Board is provided with regular reports from the Company's Broker and Company Secretary alerting the Board to recent and forthcoming changes in regulation and market practice, as well as any likely reputational risks. The Company's approach to oversee the internal controls of each of its service providers can be found on page 38.

Investee companies

As an investment trust with no trading activity, the Company has no direct social, community, or environmental responsibilities. However, the Company does have such responsibilities through its investment

portfolio. The Company is a long-term investor, and the Investment Manager and Investment Adviser incorporate ESG issues into their analysis and decision-making processes. The Company's ESG Policy can be found on page 18.

Significant events

There were a number of significant events during the period to the date of this report that the Board would like to highlight:

- The Company has been the best-performing India specialist investment trust since it launched in July 2018, compared with its three main peers within the sector. In that time the Company's NAV in total return terms has delivered more than the return of its benchmark, the MSCI India IMI index, whilst peers have underperformed the index over this same time period.
- Strong demand for the Company's shares meant that over the year shares mostly traded at a premium. The Board has, therefore, continued to employ a programme of share issuance in order to ensure that the level of premium is not excessive in normal markets.
- During the year, the Company issued 22,590,042 new Ordinary Shares by way of block listing (including 4,239,763 performance fee shares) generating additional net funds of £43,946,984. The Company made three block listing applications, totalling 20,000,000 new Ordinary shares throughout the financial year.
- Additionally, 5,386,826 shares were redeemed as part of the Company's annual redemption facility.
- The relocation of the Investment Adviser from India to Singapore and amendments to the Investment Policy including the renewal of the Investment Management Agreement. More detail on this can be found on page 22.

Board's key decisions

The Board's key decisions on share issuances and dividend policy are disclosed on page 3.

During the year ended 30 June 2022, the Board decided to approve an amendment to the Investment Policy of the Company. Further information on this can be found on page 28.

Conclusion

The Directors have considered their duty under Section 172 when making decisions throughout the financial year. The Board of Directors has sought to consider the interests of the Company's Shareholders, to understand their views and to promote transparency. The Directors see this as crucial to fulfilling their duty under Section 172.

Exercise of voting powers and stewardship code

The Board has delegated to the Investment Manager the power to vote on behalf of the Company at shareholder meetings of investee companies. The provisions of the UK Stewardship Code do not apply to the Company as all investments are outside the United Kingdom. The Investment Manager's investment process includes research into the corporate governance practices of potential investee companies, regular shareholder engagement and active stewardship. The Investment Manager's voting policy and conflicts of interest policy are reviewed by the Board annually.

Modern slavery disclosure

The Board acknowledges the requirement to provide information about human rights in accordance with the UK Modern Slavery Act. The Board conducts the business of the Company ethically and with integrity and has a zero-tolerance policy towards modern slavery in all its forms. As the Company has no employees, its Directors are non-executive and all functions are outsourced, there are no further disclosures to be made in respect of employees and human rights.

Greenhouse Gas Emissions and Streamlined Energy and Carbon Reporting (SECR)

The Company has no employees or premises, and therefore has no greenhouse gas emissions to report. Nor does it have responsibility for any other emissions producing sources under the Companies Act 2006 (Strategic Report and Directors' Reports) Regulations 2013.

As the Company has no material operations and therefore has low energy usage, it has not included an energy and carbon report.

Anti-bribery and corruption

It is the Company's policy to conduct all of its business in an honest and ethical manner. The Company takes a zero-tolerance approach to bribery and corruption and is committed to acting professionally, fairly and with

integrity in all its business dealings and relationships wherever it operates. The Company's policy and the procedures that implement it are designed to support that commitment.

Prevention of the Facilitation of Tax Evasion

The Board has adopted a zero-tolerance approach to the criminal facilitation of tax evasion.

Employees

The Company has no employees. As at 30 June 2022, the Company had four non-executive Directors, of whom three are male and one is female. The Board's policy on diversity is contained in the corporate governance report (see page 37).

Viability statement

The Board has assessed the viability of the Company for the period to 30 June 2025 (the "Period"). The Board believes that the Period, being three years, is an appropriate time frame over which to assess the viability of the Company, particularly when taking into account the long-term nature of the Company's investment strategy, which is modelled over three years and the principal and emerging risks outlined above. Based on this assessment, the Board have a reasonable expectation that the Company will be able to continue to operate and to meet its liabilities as they fall due over the Period.

In its assessment of the prospects of the Company, the Board has considered each of the principal and emerging risks set out above and the liquidity and solvency of the Company. The Board has considered the Company's income and expenditure projections and the fact that the Company's investments comprise readily realisable securities, which could, if necessary, be sold to meet the Company's funding requirements including buying back shares in order for the Company's discount control policy to be achieved.

Portfolio changes, market developments, level of premium or discount to NAV and share buybacks and share issues are discussed at quarterly Board meetings. The internal control framework of the Company is subject to a formal review on at least an annual basis.

The Board does not expect there to be any material increase in the annual ongoing charges of the Company over the Period and as the Company grows the annual ongoing charges ratio is expected to decrease. The Company's income from investments and cash realisable from the sale of its investments provide substantial cover to the Company's operating expenses, and any other costs likely to be faced by the Company over the period of the assessment.

The Directors have considered the impact of the secondary effects of the COVID-19 pandemic and the Board believes that the Company and its key third party service providers have in place appropriate business continuity plans to continue to maintain service levels throughout future pandemics.

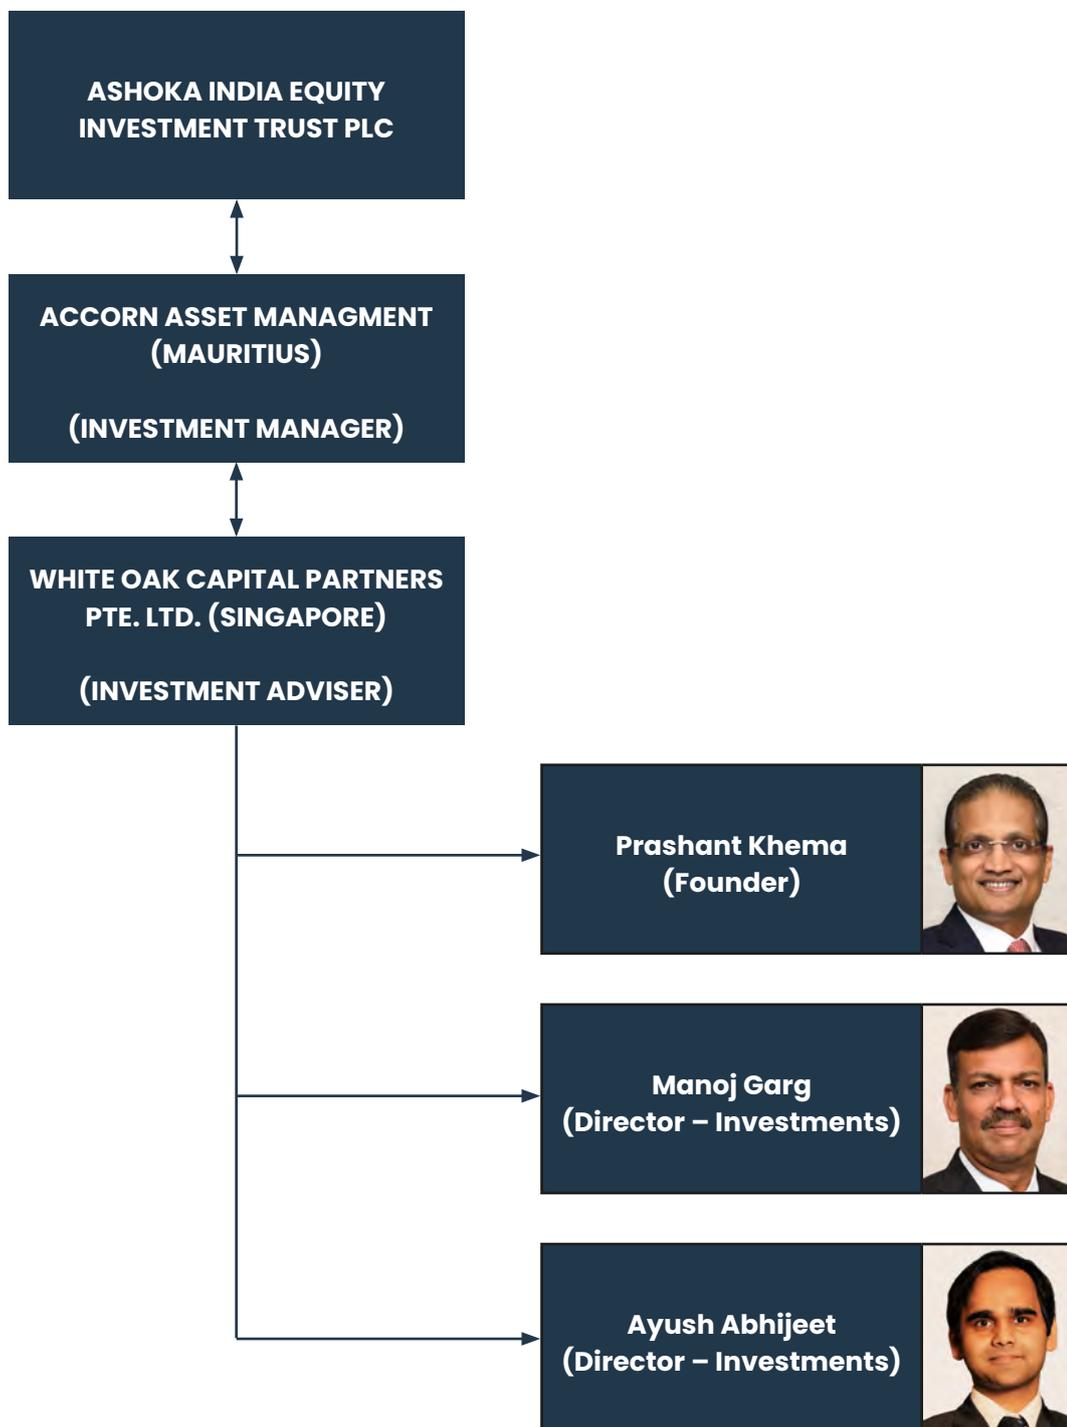

Further to this, the Board have considered the impact of Russia's invasion of Ukraine on the Company's portfolio of investments and that any future prolonged and deep market decline would likely lead to falling values in the Company's investments or interruptions to cashflow. However, the Company has more than sufficient liquidity available to meet any future obligations and does not have any investments in Russia or Ukraine.

Outlook

The outlook for the Company is discussed in the Chairman's Statement on pages 3 to 5 and Investment Manager's Report on pages 6 to 9.

For and on behalf of the Board

Andrew Watkins
Chairman of the Board
5 October 2022

The Directors present their report and accounts for the year ended 30 June 2022.

Strategic report

The Directors' Report should be read in conjunction with the Strategic Report on pages 3 to 27.

Corporate governance

The Corporate Governance Statement on page 34 forms part of this report.

Principal and emerging risks

The principal and emerging risks on pages 14 to 17 forms part of this report.

Legal and taxation status

The Company is an investment company within the meaning of Section 833 of the Companies Act 2006. The Company conducts its affairs in order to meet the requirements for approval as an investment trust under section 1158 of the Corporation Tax Act 2010. The Company has received approval as an investment trust and the Company must meet eligibility conditions and ongoing requirements in order for investment trust status to be maintained. In the opinion of the Directors, the Company has met the conditions and requirements for approval as an investment trust for the year ended 30 June 2022.

Alternative Investment Fund Managers Directive ("AIFMD")

The Company is classified as an Alternative Investment Fund under AIFMD and is therefore required to have an Alternative Investment Fund Manager. Acorn Asset Management Limited has been appointed as the Alternative Investment Fund Manager (the 'AIFM') of the Company for the purposes of the AIFMD.

Market information

The Company's Ordinary Shares are listed on the LSE. The NAV per Ordinary Share is calculated in sterling for each business day that the LSE is open for business. The daily NAV per Ordinary Share is published through a regulatory information service.

Amendment to the Company's Investment Policy

In order to allow the Investment Manager and Investment Adviser flexibility to take advantage of opportunities as they arise, the Company, following discussion with the Investment Manager, determined that it would be beneficial to amend the existing Investment Policy. The Investment Policy amendment was proposed to reflect the expectation that the Company's portfolio will comprise approximately 50 to 100 investments (as opposed to 25 to 50 investments as previously stated) and to clarify that the portfolio may occasionally comprise holdings outside of this range.) Following the year end, on 1 July 2022, a Circular was sent to Shareholders with a proposal to amend the Company's Investment Policy and these proposals were approved at a General Meeting of the Company, held on 29 July 2022. Approval was received from HMRC confirming that the Company continues to be an approved investment trust following the revision. The Company's current Investment Policy, following Shareholder approval, is set out on page 11.

Retail distribution of Investment Company shares via financial advisers and other third-party promoters

As a result of the FCA rules determining which investment products can be promoted to retail investors, certain investment products are classified as 'non-mainstream pooled investment' products and face restrictions on their promotion to retail investors.

The Company has concluded that the distribution of its Ordinary Shares, being shares in an investment trust, is not restricted as a result of the FCA rules described above.

The Company currently conducts its affairs so that the shares issued by the Company can be recommended by financial advisers to retail investors and intends to continue to do so for the foreseeable future.

Investment Manager

Acorn Asset Management Limited (“Acorn”) has been appointed as the Company’s Investment Manager (“Investment Manager”). The Investment Manager is responsible for management of the Company’s assets.

The Investment Manager does not receive a fixed management fee in respect of its portfolio management services to the Company. The Investment Manager is instead entitled to a performance fee subject to the investment returns of the portfolio outperforming the MSCI India IMI Index (sterling terms) over a three-year period. The Investment Manager will only accrue a performance fee at the end of each Performance Period of three years, provided they outperform the benchmark. The first Performance Period ended approximately three years from 6 July 2018, at the balance sheet date of the Company’s third annual financial results in 2021. The Investment Manager agreed to be paid the performance fee in Ordinary Shares. A resolution was put to the Shareholders at the AGM in December 2020 to allot new shares (the “performance shares”) in connection with any performance fees payable to the Investment Manager. This resolution was passed with 100% of the proxy votes cast being in favour of the resolution. The performance shares were allotted to the Investment Manager in the first week of October 2021. The next Performance Period will be 2024, for which the Investment Manager will be paid a performance fee, subject to the investment returns of the portfolio outperforming the MSCI India IMI Index (in sterling) over the three-year period prior to payment of that performance fee. The Performance Fee in respect of each Performance Period will be paid at the end of the three-year period.

The Company’s Net Asset Value, which is calculated and released daily, always reflects the full liability of the performance fee.

Further details on the performance fee can be found on page 74.

The Investment Management Agreement is terminable by either the Investment Manager or the Company giving to the other not less than six months’ written notice, such notice not to expire earlier than the third anniversary of first admission to trading on the premium segment of the Main Market of the LSE.

Investment Adviser

As permitted by the terms of the Investment Management Agreement, the Investment Manager has, with the consent of the Company, appointed the Investment Adviser, White Oak Capital Partners, a boutique investment advisory firm, to provide certain non-binding, non-exclusive and recommendatory investment advisory services to it. The Investment Adviser is not entitled to any fees from the Company. As mentioned on page 22, following internal re-organisation of White Oak Group, the Investment Adviser was relocated from India (White Oak Capital Management Consultants LLP) to Singapore (White Oak Capital Partners). Through its contractual arrangements with White Oak Capital Partners, the Company’s Investment Manager, Acorn Asset Management Limited, will continue to benefit from the expertise of key individuals within the White Oak Group. White Oak Capital Management and White Oak Capital Partners are both part of the White Oak Group, and the terms of appointment of White Oak Capital Partners are the same as those that applied to White Oak Capital Management.

Management engagement

In accordance with the FCA’s Listing Rules, the Board confirms that it has reviewed whether to retain Acorn Asset Management Limited as the Investment Manager of the Company.

The Board is satisfied that the Investment Manager has the suitable skills and experience to manage the Company’s investments and believes that the continuing appointment of the Investment Manager is in the best interests of Shareholders as a whole.

Company Secretary and Administrator

On 3 December 2021, PraxisIFM Group Limited ("PIFM") disposed of its entire shareholding in Praxis Fund Holdings Limited (parent entity to all PIFM's fund service operations globally), to Sanne Holdings Limited, a subsidiary of Sanne Group plc. This disposal included PraxisIFM Fund Services (UK) limited. Subsequently the name of the Company's Administrator and Company Secretary changed from PraxisIFM Fund Services (UK) Limited to Sanne Fund Services (UK) Limited. Sanne Fund Services (UK) Limited has been appointed to provide company secretarial and administration services to the Company. The Board has had continuous direct access to the advice and services of the Company Secretary who is responsible for ensuring that the Board and Committee procedures are followed, and that applicable rules and regulations are complied with.

The Company Secretary provides full company secretarial services to the Company, ensuring that it complies with all legal, regulatory, and corporate governance requirements and officiating at Board meetings and Shareholders' meetings. The Company Secretary is also responsible to the Board for ensuring timely delivery of information and reports and that the statutory obligations of the Company are met. Finally, the Company Secretary is responsible for advising the Board through the Chairman on all governance matters.

Custodian

Kotak Mahindra Bank Limited has been appointed as the Company's Custodian to safeguard the Company's cash and investments.

Capital structure and voting rights

As at 30 June 2022, the Company's issued share capital comprised 107,567,672 Ordinary Shares (30 June 2021: 85,958,888). Each Ordinary Share held entitles the holder to one vote. All shares carry equal voting rights and there are no restrictions on those voting rights. Voting deadlines are stated in the Notice of Meeting and Form of Proxy and are in accordance with the Companies Act 2006.

Since the year end the Company has issued 2,350,000 new Ordinary Shares.

There are no restrictions on the transfer of shares, nor are there any limitations or special rights associated with the Ordinary Shares.

Substantial shareholding

As at 30 June 2022, the Directors have been formally notified of the following interests in the Company's Ordinary Shares, comprising 3% or more of the issued share capital of the Company:

| Name | Holding | % ¹ |
|---|-----------|----------------|
| Rathbone Investment Management Limited | 9,935,238 | 9.24 |
| Charles Stanley Group plc | 6,760,993 | 6.29 |
| Acorn Asset Management/White Oak Capital ² | 5,940,331 | 5.52 |
| EQ Investors Ltd | 5,500,152 | 5.11 |
| Schroders plc | 4,740,494 | 4.41 |
| Tilney Smith & Williamson Limited | 4,366,111 | 4.06 |

¹ Based on the number of Ordinary Shares in issue at the Company's year end.

² This is the amalgamated holdings of Acorn Asset Management Limited (3.94%), White Oak Capital Partners Pte (1.06%) Ltd and Prashant Khemka (0.52%).

Following the year end, the Company has not been formally notified of any significant shareholdings comprising 3% or more of the issued share capital of the Company.

Settlement of Ordinary Share transactions

Ordinary Share transactions in the Company are settled by the CREST share settlement system.

Re-appointment of the Auditor

The Company's Auditor, Ernst & Young LLP, having expressed their willingness to continue in office as auditors, will be put forward for re-appointment at the Company's Annual General Meeting and the Board will seek authority to determine their remuneration for the forthcoming year.

Going concern

The Directors have adopted the going concern basis in preparing the accounts. The following is a summary of the Directors' assessment of the going concern status of the Company.

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for at least twelve months from the date of this document. In reaching this conclusion, the Directors have considered the liquidity of the Company's portfolio of investments as well as its cash position, income and expense flows. The Company's net assets at 30 June 2022 were £187.4 million (30 June 2021: £136.6 million). As at 30 June 2022, the Company held £178.0 million (30 June 2021: £141.1 million) in quoted investments and cash of £7.0 million (30 June 2021: £7.4 million). The total expenses (excluding performance fees) for the year ended 30 June 2022 were £0.8 million (30 June 2021: £0.5 million), which represented approximately 0.5% (30 June 2021: 0.5%) of average net assets during the year. At the date of approval of these Financial Statements, based on the aggregate of investments and cash held, the Company has substantial operating expenses cover.

Auditor independence and information

The Board believes that auditor independence is safeguarded by the following measures: the extent of non-audit work which may be carried out by the auditor is restricted and receives pre-approval by the Audit Committee; the auditor has provided its independence policies and the safeguards and procedures it has developed to respond to challenges to its objectivity; it also confirms that it is independent within the meaning of all regulatory and professional requirements and that the objectivity of the audit team is not impaired.

Each of the Directors at the date of the approval of this report confirms that:

- (i) so far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware; and

- (ii) the Directors have taken all steps that they ought to have taken as Directors to make themselves aware of any relevant information and to establish that the Company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006.

Annual General Meeting ("AGM")

The following information is important and requires your immediate attention. If you are in doubt about the action you should take, you should seek advice from your stockbroker, bank manager, solicitor, accountant, or other financial adviser authorised under the Financial Services and Markets Act 2000.

Resolutions relating to the following items of special business will be proposed at the forthcoming AGM:

Resolution 2 Directors' Remuneration Policy

The Directors' Remuneration Policy (the 'Policy') is put before Shareholders for approval every three years and was approved by Shareholders at the AGM on 30 October 2019 and became effective on that date. The Policy will be put before Shareholders for approval at the AGM on 8 December 2022. The policy is that the remuneration of Directors: be fair and reasonable in relation to that of other investment trusts and to the time commitment and responsibilities undertaken; be reviewed relative to movements in the Retail Price Index; be sufficient to retain and motivate appointees, as well as ensure that candidates of a high calibre are recruited to the Board but not be more than necessary for the purpose; and take into consideration any committee memberships and chairmanship duties.

Fees for the Directors are determined by the Board within the limits stated in the Company's Articles of Association ("Articles"). The maximum currently is £300,000 in aggregate per annum. Directors do not have service contracts. Directors are appointed under letters of appointment, copies of which are available for inspection at the registered office of the Company. Directors are

entitled to be reimbursed for any reasonable expenses properly incurred by them in the performance of their duties. Directors are not eligible for bonuses, pension benefits, share options or other incentives or benefits. There are no agreements between the Company and its Directors concerning compensation for loss of office. Notwithstanding the above, the Company's Articles also provide that, additional discretionary payments can be made for services which, in the opinion of the Directors, are outside the scope of the ordinary duties of a director.

The level of Directors' remuneration is reviewed annually, although such review will not automatically result in any changes. This Directors' Remuneration Policy will apply to any new directors, who will be paid the appropriate fee based on the Directors' fees level in place at the date of appointment. The Board will consider, where raised, Shareholders' views on Directors' remuneration. The Board may amend the level of remuneration paid to Directors within the parameters of the Directors' Remuneration Policy. This Directors' Remuneration Policy is the same as that currently followed by the Board as disclosed in last year's Directors' Remuneration Report.

The Company has no employees and consequently has no policy on the remuneration of employees.

Resolution 12 Authority to issue shares and to disapply pre-emption rights

The Board is seeking authority to allot up to a maximum of 21,983,534 Ordinary Shares (representing approximately 20% of the shares in issue at the date of this document) and to dis-apply pre-emption rights when allotting those Ordinary Shares at the forthcoming Annual General Meeting. Authority granted under this resolution will expire at the conclusion of the Annual General Meeting to be held in 2023 unless renewed prior to this date via a General Meeting. The full text of resolution 12 is set out in the Notice of Meeting on page 89.

The authority granted by Shareholders to issue shares will provide flexibility to grow the Company and spread its fixed costs. Shares will only be issued at a premium

to the Net Asset Value (cum income) after the costs of issue. Share issues are at the discretion of the Board.

Resolution 13 Renewal of authority to purchase own shares

The Directors recognise the importance to investors of ensuring that the Company's share price is as close to its underlying NAV as possible. Accordingly, the Directors monitor the share price closely and will consider share repurchases in the market if the discount widens significantly, or the issue of shares to the market to meet demand to the extent that the Company's shares are trading at a premium. For the year under review, the Company's ordinary shares have traded at an average premium to NAV of 1.15% and were trading at a premium of 5.1% on a cum-income basis at 3 October 2022, the latest practicable date prior to the issue of this report.

The Companies Act 2006 permits companies to hold shares acquired by way of market purchase as treasury shares, rather than having to cancel them. This provides the Company with the ability to re-issue Ordinary Shares quickly and cost effectively, thereby improving liquidity and providing the Company with additional flexibility in the management of its capital base. No Ordinary Shares will be sold from treasury at a price less than the (cum income) Net Asset Value per existing Ordinary Share at the time of their sale unless they are first offered pro rata to existing Shareholders. At the year end the Company did not hold any shares in treasury. The Authority to make market purchases will expire at the conclusion of the Company's AGM in 2023. The Directors recommend that a new authority to purchase up to 16,476,659 Ordinary Shares (subject to the condition that not more than 14.99% of the Ordinary Shares in issue, excluding treasury Shares, at the date of this notice of AGM are purchased) be granted and a resolution to that effect will be put to the AGM. Any Ordinary Shares purchased will either be cancelled or, if the Directors so determine, held in treasury. The Directors consider that the renewing of the authority is in the interests of Shareholders as a whole, as the repurchase of shares at a discount to the underlying NAV enhances the NAV of the remaining

shares. Resolution 13 will give the Company authority to buy-back its own issued Ordinary Shares in the market as permitted by the Companies Act 2006. The authority also sets the minimum and maximum prices which will be paid on any buy-back of shares.

Since the Company's inception in July 2018, the NAV has increased by 74.2% and the Company's share price has increased by 75%, both comfortably ahead of the benchmark index which grew by 33.9% (in sterling terms). The Company's share price stood at 175.0p at the year end, a 0.5% premium to NAV. Therefore, in the event of the Company's shares trading at a discount, it is considered unlikely that performance alone would have been the main contributor. The Board may require the authority to purchase shares in the event that the Company's discount becomes excessive in circumstances where they may have exhausted all other means to narrow the Company's discount, or where they require the power to buy back shares in periods of market volatility beyond their (or the Investment Manager's) control to protect the long term interests of the Company's Shareholders.

Further to the above, the Company's Ongoing Charges ratio of 0.5%, which reflects expenses which are likely to recur in the foreseeable future, whether charged to capital or revenue, and which relate to the operation of the Company is below average amongst investment trusts and is not believed by the Board to have had influence when the Company's share price has traded at a small discount to Net Asset Value. The Board reviews the ongoing charges and monitors the expenses incurred by the Company.

During the year ended 30 June 2022, the Company did not utilise its authority to purchase its own shares. The full text of resolution 13 is set out in the Notice of Meeting on page 90.

Resolution 14 Notice of General Meetings

Resolution 14 in the notice to the AGM is required to reflect the requirements of the Shareholder Rights Directive. The Company is currently able to call General Meetings, other than an AGM, on 14 clear days' notice

and would like to preserve this ability. In order to be able to do so, Shareholders must have approved the calling of meetings on 14 clear days' notice.

Resolution 14 seeks such approval. The approval would be effective until the Company's next AGM, when it is intended that a similar resolution will be proposed. The Company will ensure that it offers the facility for Shareholders to vote by electronic means, and that this facility is accessible to all Shareholders, if it is to call general meetings on 14 days' notice. Short notice will only be used by the Board under appropriate circumstances.

By order of the Board

Brian Smith

For and on behalf of

Sanne Fund Services (UK) Limited

Company Secretary

5 October 2022

Introduction

The Board has considered the Principles and Provisions of the AIC Code of Corporate Governance 2019 (the "AIC Code"). The AIC Code addresses the Principles and Provisions set out in the UK Corporate Governance Code 2018 (the "UK Code"), as well as setting out additional Provisions on issues that are of specific relevance to the Company. The Board considers that reporting against the Principles and Provisions of the AIC Code, which has been endorsed by the Financial Reporting Council, provides more relevant information to Shareholders. The Company has complied with the Principles and Provisions of the AIC Code. The AIC Code is available on the AIC website (www.theaic.co.uk). It includes an explanation of how the AIC Code adapts the Principles and Provisions set out in the UK Code to make them relevant for investment companies.

The Company has complied with the recommendations of the AIC Code and the relevant provisions of the UK Code, except as set out below.

The UK Code includes provisions relating to:

- the role of the chief executive;
- the appointment of a senior independent director;
- the establishment of a remuneration committee;
- the need for an internal audit function; and
- executive directors' remuneration

The Board considers that these provisions are not relevant to the position of the Company, being an externally managed investment company with an independent board and no employees. Due to the size and nature of the Company's business, the Board has not deemed it necessary to appoint a Senior Independent Director as the role can be performed by the Board as a whole. Additionally, the Audit Committee has considered the need for an internal audit function and considers that this is not appropriate given the nature

and circumstances of the Company as an externally managed investment company with external service providers. The Audit Committee keeps the needs for an internal audit function under periodic review.

The Company has therefore not reported further in respect of these provisions.

The Board

Composition

At the date of this report, the Board consists of four non-executive directors including the Chairman. Mr Watkins and Mr Skinner were appointed on 11 May 2018. Dr Booth and Ms Dhut were appointed on 7 June 2018.

Rita Dhut was appointed Senior Independent Director of the Company with effect from 1 October 2022.

The Board believes that during the year ended 30 June 2022 its composition was appropriate for an investment company of the Company's nature and size. All of the Directors are independent of the Investment Manager and are able to allocate sufficient time to the Company to discharge their responsibilities effectively. All Board members actively participate in Board meetings, provide constructive challenge, specialist advice and strategic guidance.

The Directors have a broad range of relevant experience to meet the Company's requirements and their biographies are given below.

Andrew Watkins (non-executive Chairman)

Andrew Watkins has over 30 years' experience in the investment companies' sector in senior sales and client relations positions with Robert Fleming, Jupiter and Invesco Perpetual, retiring from full-time employment in June 2017. He is a current non-executive director of BMO UK High Income Trust plc, Chelverton UK Dividend Trust plc, Baillie Gifford European Growth Trust plc and Consistent Unit Trust Management Ltd.

Jamie Skinner (Chair of the Audit Committee)

Jamie Skinner is a qualified accountant and a fellow of the Chartered Institute for Securities and Investment. He joined Cazenove & Co in 1989 as a corporate finance executive working principally on investment companies and also other sector IPO activity. In 1999 he joined Martin Currie Investment Management Limited as a Director and in 2014 was appointed Head of Client Services. He served as President and CEO of The China Fund, Inc. until 2012, President and CEO of The Taiwan Fund, Inc. until 2014 and President of the Martin Currie Business Trust until 2015. He was appointed to the board of Martin Currie, Inc. in March 2013 and to the board of the Martin Currie Japan Absolute Return Fund in January 2016 and retired from these roles on 17 May 2018 and 10 May 2018 respectively. He is currently a non-executive director of Ediston Property Investment Company plc, the Asian Opportunities Absolute Return Fund Limited and Baillie Gifford Shin Nippon plc.

Dr Jerome Booth (Chair of the Nomination Committee)

Dr Jerome Booth is a well-known economist and leading expert on emerging markets. He has a D.Phil and an M.Phil, in Economics from the University of Oxford as well as a degree in Geography from the University of Bristol. In 2013 he retired from Ashmore Group, a world leading emerging markets asset management group that he helped establish in 1999 in a management buy-out from ANZ Bank. Prior to ANZ he worked in the Strategic Planning unit of the Inter-American Development Bank from 1991 to 1994 in Washington, D.C. Prior to this, he had appointments as a Lecturer in Economics at Christ Church, Oxford, a consultancy business advising on aid issues and a position in the mid-1980s in Her Majesty's Department of Trade and Industry. He retired from his position as Chairman of the Governing Board of Anglia Ruskin University on 31 July 2020.

Rita Dhut (Chair of the Management Engagement Committee)

Rita Dhut has over 25 years of varied investment experience having gained industry recognition and multiple awards during her Fund Management career. In 1994 she joined M&G Investment Management as UK equity Fund Manager before being appointed Director of European Equities. In 2001 she joined Aviva Investors and was appointed Head of European Equities in 2004 and in 2006 became Head of UK & European Equity for value-based investment responsible for over £6bn of equity

funds. She left Aviva Investors in 2012 and is now an active investor in, and adviser to early stage companies. She works in Venture Capital on Newable Ventures range of Scale up funds. She is also a Non-Executive Director of Integragin plc and Chair of JP Morgan European Investment Trust plc. Rita has pursued other personal interests close to her heart and is currently a Trustee for the Girls' Day School Trust and a Trustee of The Financial Times Financial Literacy Charity. She is an associate of the CFA Institute and a graduate of City University, London.

The Directors have appointment letters which do not provide for any specific term. Copies of the Directors' appointment letters are available on request from the Company Secretary. Upon joining the Board, any new Director receives an induction and further relevant training is available to Directors on an ongoing basis. When considering new appointments to the Board the Directors will consider other demands on the Director's time and any significant time commitments should be disclosed prior to appointment. Additional external appointments will not be undertaken without prior Board approval.

Independent advice

A procedure has been adopted for Directors, in the furtherance of their duties, to take independent professional advice at the expense of the Company.

Conflicts of interest

In accordance with the Companies Act 2006, the Company has put in place procedures to deal with conflicts of interest, which have operated effectively. The Directors have declared any conflicts or potential conflicts of interest to the Board, which has the authority to approve such occurrences. The Company Secretary maintains the Register of Directors' Conflicts of Interests which is reviewed at each quarterly board meeting and when changes are notified. The Directors advise the Company Secretary and the Board as soon as they become aware of any conflicts of interest. Directors who

have conflicts of interest do not take part in discussions which relate to any of their conflicts.

It is the responsibility of each individual Director to avoid an unauthorised conflict arising. Directors must request authorisation from the Board as soon as they become aware of the possibility that a conflict may arise. The Board is responsible for considering Directors' requests for authorisation of conflicts and for deciding whether or not the relevant conflict should be authorised. When the Board is deciding whether to authorise a conflict or potential conflict, only Directors who have no interest in the matter being considered are able to participate in the relevant decision, and in taking the decision the Directors must act in a way they consider, in good faith, will be most likely to promote the Company's success. The Board are able to impose limits or conditions when giving authorisation if they think this is appropriate in the circumstances. The Directors must also comply with the statutory rules requiring company directors to declare any interest in an actual or proposed transaction or arrangement with the Company.

Board committees

The Board decides upon the membership and chairmanship of its committees.

Audit Committee

In accordance with the Companies Act 2006, the Company has put in place procedures to deal with conflicts of interest, which have operated effectively. The Board is aware of the other commitments of its Directors and is satisfied that these duties do not conflict with their duties as Directors of the Company. Any changes to these commitments are reported to the Board. Mr Skinner is the Chair of the Audit Committee.

Management Engagement Committee

All of the Directors are members of this committee. The Management Engagement Committee meets at least once a year or more often if required. Its principal duties

include consideration of the terms of appointment of the Investment Manager and the Company's other service providers, and it will annually review those appointments and the terms of the Investment Management Agreement. Ms Dhut is the Chair of the Management Engagement Committee.

Nomination Committee

The Board as a whole fulfils the function of the Nomination Committee. The Nomination Committee meets at least

once a year or more often if required. Its principal duties include identifying and nominating to the Board new Directors and undertaking an annual performance evaluation of the Board, led by the Committee Chairman. Dr Booth is the Chair of the Nomination committee.

Each Committee has adopted formal terms of reference, which are reviewed at least annually, and copies of these are available on the Company's website or on request from the Company Secretary.

Meeting attendance

| | Quarterly Board Meetings | Audit Committee | Nomination Committee | Management Engagement Committee |
|--------------------------------|---------------------------------|------------------------|-----------------------------|--|
| Number of meetings held | 4 | 2 | 1 | 1 |
| Andrew Watkins | 4/4 | 2/2 | 1/1 | 1/1 |
| Jamie Skinner | 4/4 | 2/2 | 1/1 | 1/1 |
| Dr Jerome Booth | 4/4 | 2/2 | 1/1 | 1/1 |
| Rita Dhut | 4/4 | 2/2 | 1/1 | 1/1 |

Board diversity

Appointments to the Board are based on merit with due regard to the benefits of diversity. The Board considers many factors, including the balance of skills, knowledge, experience, gender, ethnicity, cognitive and personal strengths when reviewing its composition and appointing new Directors. The aim of the policy is to identify those with the best range of skills and experience to complement existing Directors in order to provide effective oversight of the Company and constructive support and challenge to the Investment Adviser. The Board currently comprises four Non-Executive Directors of which three are male and one is female. The Company has no employees. Summary biographical details of the Directors, including their relevant experience, are set out on page 35.

Tenure Policy

Each Director is subject to annual re-election by Shareholders. Although this is not required by the

Company's Articles of Association, it is good governance practice. The Board recommends all of the Directors for re-election at the upcoming AGM in December 2022. The Company has no fixed policy regarding tenure of directorships. The Board recognises the benefits to the Company of having longer serving Directors together with progressive refreshment of the Board in line with corporate governance best practice.

The Board are mindful that the entire Board will reach their ninth anniversary simultaneously during summer 2027. In order to ensure continuity, the Board has adopted a succession plan that allows for a gradual refreshment. Accordingly, the Board may decide to recommend a director with more than nine years' service for re-election should the need arise.

Board Evaluation

A formal annual performance evaluation was conducted on the Board, the Chairman, the Committees, the Investment Manager, and the main service providers for

the year ended 30 June 2022. The Directors recognise the importance of the AIC Code's recommendation in respect of evaluating the performance of the Board as a whole, the Committees of the Board and individual Directors. Following careful consideration of available options, the Board appointed the Company Secretary, Sanne Fund Services (UK) Limited, to conduct an internal evaluation of the Board, its Committees, and individual Directors.

The results of this evaluation were reviewed by the Chairman and discussed with the Board. The conclusions of the performance evaluations were positive and demonstrated that the Board, its Committees, the Investment Manager and Service Providers were operating effectively and showed the necessary commitment to the effective fulfilment of their duties. A separate appraisal of the Chairman was carried out by the other Directors and the results reported back to the Chairman by the Chair of the Nominations Committee. The results of the performance evaluation demonstrated that the Directors showed the necessary commitment for the effective fulfilment of their duties. In the Board's considered view, all Directors were and remain independent.

Internal control

The AIC Code requires the Board to review the effectiveness of the Company's system of internal controls. The Board recognises its ultimate responsibility for the Company's system of internal controls and for monitoring its effectiveness. The system of internal controls is designed to manage rather than eliminate the risk of failure to achieve business objectives and it can provide only reasonable assurance against material misstatement or loss. The Board has undertaken a review of the aspects covered by the guidance and has identified risk management controls in the key areas of business objectives, accounting, compliance, operations and secretarial as being matters of particular importance upon which it requires reports from the relevant key service providers. The Board believes that the existing arrangements, set out below, represent

an appropriate framework to meet the internal control requirements. By following these procedures, the Directors have kept under review the effectiveness of the internal control system throughout the year and up to the date of this report.

Financial aspects of internal control

These are detailed in the Report of the Audit Committee on page 45.

Other aspects of internal control

The Board holds at least four regular meetings each year, plus additional meetings as required. Between these meetings there is regular contact with the Investment Adviser, the Company Secretary, and the Administrator.

The Administrator, Sanne Fund Services (UK) Limited, reports separately in writing to the Board concerning risks and internal control matters within its purview, including internal financial control procedures and company secretarial matters. Additional ad hoc reports are received as required and Directors have access at all times to the advice and services of the Company Secretary, which is responsible to the Board for ensuring that Board procedures are followed, and that applicable rules and regulations are complied with.

Engagement with the Investment Manager and the Administrator enabled the Board to monitor the Company's progress towards its objectives and encompass an analysis of the risks involved. The effectiveness of the Company's risk management and internal control systems is monitored regularly and a formal review, utilising a detailed risk assessment programme, takes place at least annually. This includes a review of the internal controls reports of the Administrator, Investment Manager, Registrar and Custodian.

Principal and emerging risks

The Directors confirm that they have carried out a robust assessment of the principal and emerging risks facing

the Company, including those that would threaten its business model, future performance, solvency or liquidity. The principal and emerging risks and how they are being managed are set out in the Strategic Report on pages 3 to 27.

Shareholder relations

The Board encourages all Shareholders to attend the AGM and seeks to provide twenty working days' notice of that meeting. The Notice of AGM sets out the business of the AGM and any item not of an entirely routine nature is explained in the Directors' Report. Separate resolutions are proposed for each substantive issue. The Investment Manager has a regular program of meetings with Shareholders and reports back to the Board on its findings. Additionally, the Company's Broker regularly provides Shareholder feedback to the Board.

The Board is pleased to present the Remuneration Report for the year ended 30 June 2022 which has been prepared in accordance with sections 420-422 of the Companies Act 2006. The law requires the Company's auditor to audit certain sections of the Remuneration Report; where this is the case the relevant section has been indicated as such.

Annual Chairman's Statement

During the Company's financial year ended 30 June 2022, there has been no change in the Board's composition from the disclosures contained in the Company's prospectus.

AGM approval of the Remuneration Policy and Remuneration Implementation Report

In accordance with the requirements of Schedule 8 of the Large and Medium Sized Companies and Groups (Accounts and Reports) Regulations 2008, as amended (the Regulations), the Board is required to put forward for shareholder approval at its first Annual General Meeting ("AGM"), and on a triennial basis thereafter, a Remuneration Policy. Accordingly, the Remuneration Policy of the Company set out below was proposed to Shareholders via an ordinary resolution, which is a binding resolution, at the AGM held on 30 October 2019. The resolution was successfully passed at the AGM in 2019, and the provisions set out in the below Remuneration Policy applied from the date of the AGM and will next be submitted for shareholder approval at the Company's upcoming AGM in December 2022.

In the event of any proposed material variation to the Remuneration Policy or should the Remuneration Policy or the Remuneration Implementation Report fail at the forthcoming AGM, shareholder approval will be sought for a proposed revised Remuneration Policy prior to its implementation. The Remuneration Implementation Report will require approval via an ordinary resolution on an annual basis. This resolution is put to Shareholders on an advisory, non-binding, basis which means that, if the resolution were to fail to attract sufficient votes in favour, the Board would continue to be entitled to be remunerated and would not be required to amend their contractual relationship with the Company. However, if the Remuneration Implementation Report were to be voted down by Shareholders, the Board would be required to resubmit the Remuneration Policy to Shareholders at the AGM following the AGM at which the Remuneration Implementation Report failed.

Remuneration Policy

The Remuneration Policy was approved by Shareholders at the AGM held on 30 October 2019. The remuneration report was last approved by Shareholders at the AGM held on 8 December 2021. All the Directors are non-executive directors, and the Company has no other employees. The components of the remuneration package for non-executive directors, which are contained in the Remuneration Policy are as detailed below:

Current and future policy

| Component | Director | Purpose of reward | Operation |
|-------------------------------|---------------------------------|---|--|
| Annual fee ^{1,2} | Chairman of the Board | For services as Chairman of a plc | Determined by the Board |
| Annual fee ^{1,2} | Other Directors | For services as non-executive Directors of a plc | Determined by the Board |
| Additional fee ^{1,2} | Chairman of the Audit Committee | For additional responsibility and time commitment | Determined by the Board |
| Expenses | All Directors | Reimbursement of expenses incurred in the performance of duties | Submission of appropriate supporting documentation |

- 1 **Payment in shares** - The Board has determined that with effect from 24 June 2021, Directors' may elect to receive their Directors fee in cash, rather than in shares. The Directors (excluding the Chairman from 30 June 2021 and Ms Dhut from 30 June 2022) have agreed that any fees payable to them shall, save where the Company determines otherwise, be satisfied in Ordinary Shares acquired at market value, such Ordinary Shares to be acquired on behalf of the Directors and for their account by the Company's broker. Any Ordinary Shares acquired by the Directors pursuant to these arrangements shall be subject to the terms of the Directors' Lock-in Deed and not accounted under share-based payments. The Chairman of the Board has elected to be paid fees in cash, rather than in shares, from the quarter ended 30 June 2021 and Ms Dhut has made the same election from the quarter ended 30 June 2022.
- 2 **Lock-in Deed** - Each Board member is subject to a Deed between themselves, the Company and Peel Hunt (the "Broker") dated 19 June 2018. The Directors have agreed that they will not sell, grant options over or otherwise dispose of any interest in any Ordinary Shares acquired by them in satisfaction of their entitlement to Directors' fees (save in certain circumstances, including: (i) in acceptance of a general offer made for the entire issued share capital of the Company; or (ii) pursuant to an intervening court order; or (iii) following termination of their appointment as a non-executive Director of the Company) prior to the first anniversary of the date of acquisition of the relevant Ordinary Shares. The Directors' Lock-in Deed is governed by the laws of England and Wales.

The current aggregate remuneration that can be paid to Directors under the Company's Articles of Association is £300,000 per annum.

In accordance with the Shareholder Rights Directive, the Board confirms there were no variable pay awards made to the Directors and there were no deferral periods. The annual percentage change in remuneration in respect of the current and prior financial years of each Directorship is as follows:

| | % change in fees 30 June 2021 to 2022 | % change in fees 30 June 2020 to 2021 | % change in fees 30 June 2019 to 2020 |
|--|---------------------------------------|---------------------------------------|---------------------------------------|

Directors' service contracts

The Directors do not have service contracts with the Company. The Directors have appointment letters which do not provide for any specific term. They are subject to re-election by Shareholders at a maximum interval of three years although, for good governance, they submit themselves for annual re-election. Subject to the provision of the Lock-in-Deed, there are no restrictions on transfers of the Company's shares held by the Directors, or any special rights attached to such shares.

Fees payable on recruitment

The Board will not pay any incentive fees to any person to encourage them to become a Director of the Company. The Board may, however, pay fees to external agencies to assist the Board in the search and selection of Directors.

Directors' Remuneration Policy & Implementation Report

42

(continued)

Remuneration Implementation Report (Audited)

The table below provides a single figure for the total remuneration of each Director for the year ended 30 June 2022 together with the prior year comparative:

| Director | Fees to 30 June 2022 £ | Fees to 30 June 2021 £ |
|-----------------|------------------------------|------------------------------|
| Andrew Watkins | 40,000 | 35,000 |
| Jamie Skinner | 32,500 | 27,500 |
| Dr Jerome Booth | 27,500 | 25,000 |
| Rita Dhut | 27,500 | 25,000 |
| Total | 127,500 | 112,500 |

Director remuneration is reviewed on an annual basis by the Board. Prior to 1 July 2021 the Directors' fees had remained unchanged since the Company's inception in July 2018. Following due consideration of peers within the sector, and analysis of current market rates of Directors' fees for investment trust companies, the Board approved an increase in Directors' Fees.

Information on Directors' costs is disclosed on Note 8 of these Financial Statements.

Voting at last Annual General Meeting

The resolution to approve the Remuneration Policy contained in the Annual Report for the year ended 30 June 2019 was passed at the AGM held on 30 October 2019 with 100% of the shares voted being in favour of the resolution. The resolution to approve the Director's Remuneration Report contained in the Annual Report for the year ended 30 June 2021 was put forward to Shareholders at the AGM held on 8 December 2021. The resolution was passed with 99.98% of the shares voted being in favour of the resolution and 24,326 votes were withheld.

Remuneration Committee

Given the size of the Board, being four members in number, the Board is of the view that a separate Remuneration Committee is not required to be established. The Nomination Committee is responsible, inter alia, for reviewing the remuneration payable to the Directors considering the relevant circumstances of the Company.

Fees

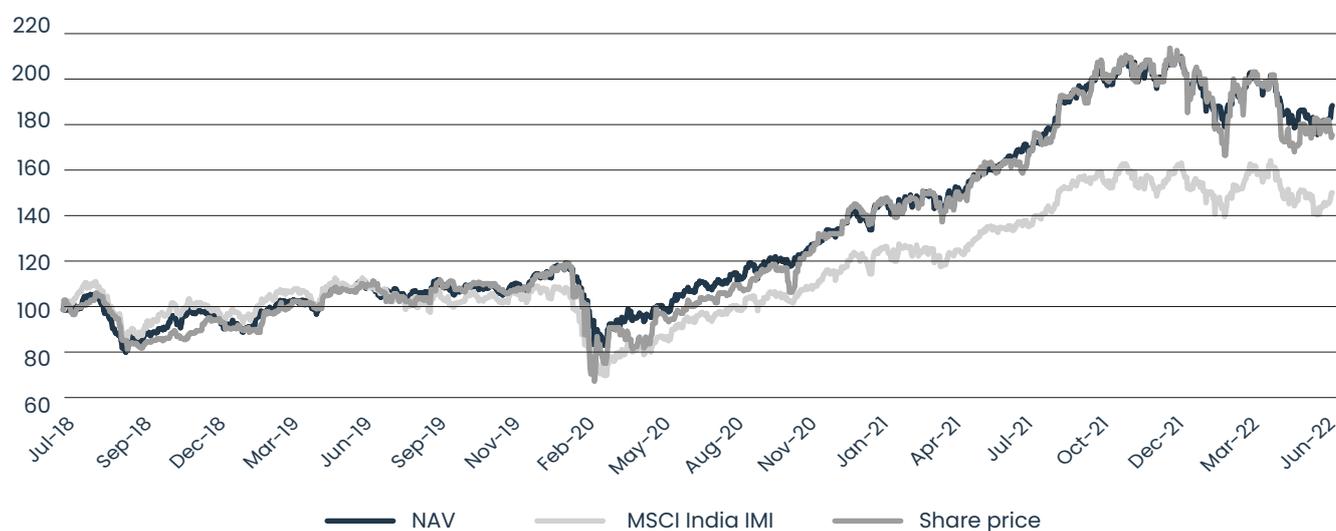

The fees were payable at an annual rate of £40,000 to the Chairman and £27,500 to each Director. In addition, the Chairman of the Audit Committee received an additional fee of £5,000 per annum. During the year ended 30 June 2022, a review of Directors' remuneration has been performed and the Board agreed that this remained appropriate.

Directors' indemnities

The Company has agreed to indemnify, defend and hold harmless its Directors from and against all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, legal costs, reasonable expenses or disbursements (other than those resulting from fraud or negligence).

Performance

The following chart shows the performance of the Company's net asset value and share price (total return) by comparison to the MSCI India IMI Index (total return in sterling) for the period since the Company was listed assuming £100 was invested at the point the Company was listed. The Company does not have a specific benchmark but has deemed the MSCI India IMI Index (in sterling) to be the most appropriate comparator for its performance.

Relative importance of spend on pay

The following table sets out the total level of Directors' remuneration compared to income and capital gains, the distributions to Shareholders by way of dividends, and the performance fees and operating expenses incurred by the Company for the year ended 30 June 2022, together with the prior year comparative.

| | Year ended 30 June 2022 £ | Year ended 30 June 2021 £ |
|--------------------------------|---------------------------------|---------------------------------|
| Income | 1,040,000 | 628,000 |
| Net investment gains | 7,539,000 | 52,812,000 |
| Spend on Directors' fees | 127,500 | 112,500 |
| Performance fees | nil | 5,105,000 |
| Operating expenses | 832,000 | 511,000 |
| Dividends paid to Shareholders | nil | nil |

The disclosure of the information in the table above is required under The Large and Medium-sized Companies and Groups (Accounts and Reports) (Amendment) Regulations 2013 with the exception of performance fees and operating expenses which have been included to show the total expenses of the Company.

Directors' holdings (audited)

At 30 June 2022 the Directors had the following holdings in the Company. All holdings were beneficially owned.

| | Ordinary Shares as at 30 June 2022 | Ordinary Shares as at 30 June 2021 | Ordinary Shares as at the date of this report |
|-----------------|---|---|---|
| Andrew Watkins | 94,425 | 94,425 | 94,425 |
| Jamie Skinner | 84,733 | 75,023 | 86,806 |
| Rita Dhut | 81,733 | 74,425 | 81,733 |
| Dr Jerome Booth | 66,202 | 54,839 | 68,957 |

Directors' Remuneration Policy & Implementation Report

44

(continued)

Statement

On behalf of the Board and in accordance with Part 2 of Schedule 8 of the Large and Medium-sized Companies and Groups (Accounts and Reports) (Amendment) Regulations 2013, I confirm that the above Remuneration Policy and Remuneration Implementation Report summarises, as applicable, for the year ended 30 June 2022:

- (a) the major decisions on Directors' remuneration;
- (b) any substantial changes relating to Directors' remuneration made during the year; and
- (c) the context in which the changes occurred and decisions have been taken.

Andrew Watkins
Chairman of the Board

5 October 2022

Role and responsibilities of the Audit Committee

The AIC Code of Corporate Governance (the "AIC Code") recommends that Boards should establish an audit committee consisting of at least three, or in the case of smaller companies, two independent non-executive Directors. The Board is required to satisfy itself that the audit committee has recent and relevant financial experience. The main role and responsibilities of the audit committee should be set out in written terms of reference covering certain matters described in the Code. The Company complies with the AIC Code.

The Committee has formal written terms of reference which clearly set out its main role and responsibilities including certain matters provided for in the Code. Copies of the terms of reference are available on the Company's website or on request from the Company Secretary.

The principal responsibilities of the Committee are:

- to monitor the integrity of the financial statements of the Company and any formal announcements relating to the Company's financial performance;
- to review the Company's internal financial controls and the internal control and risk management systems of the Company and its third party service providers;
- to make recommendations to the Board in relation to the appointment of the external Auditor and their remuneration;
- to review and monitor the external Auditor's independence and objectivity and the effectiveness of the audit process; and
- to develop and implement policy on the engagement of the external Auditor to supply non-audit services, taking into account relevant guidance regarding the provision of non-audit services by the external audit firm.

The Audit Committee meets formally at least twice a year for the purpose, amongst other things, of considering the appointment, independence and objectivity, and remuneration of the Auditor and to review the annual accounts and half-yearly financial report. The Audit Committee also reviews the Company's internal financial controls and its internal control and risk management systems. Where non-audit services are provided by the auditor, full consideration of the financial and other implications on the independence of the auditor arising from any such engagement are considered before proceeding. These are non-recurring services, and the work was performed by a team independent of the audit team and the audit team place no reliance on the output of the services provided.

Composition of the Committee

All of the Directors of the Company are members of the Committee which is chaired by Mr Skinner. All members of the Committee have recent and relevant financial experience. The Chairman of the Company is a member of the Committee. The Board and the Committee believe that it is appropriate for the Chairman of the Board to remain a member of the Committee because he has recent and relevant financial experience and was independent on his appointment as Chairman and remains so.

Activities of the Committee

There were two Audit Committee meetings held during the year ended 30 June 2022 at which all Committee members were in attendance.

The Committee, amongst other things, considered the appointment, independence and objectivity, and remuneration of the external Auditor and reviewed the annual accounts and half-yearly financial report. The Committee also reviewed the Company's internal financial controls and its internal control and risk management systems. Where non-audit services were provided by the external Auditor, full consideration of the financial and other implications on the independence of the external Auditor arising from any such engagement were considered before proceeding.

Financial aspects of internal control

The Directors are responsible for the internal financial control systems of the Company and for reviewing its effectiveness. The aim of the internal financial control system is to ensure the maintenance of proper accounting records, the reliability of the financial information upon which business decisions are made and which is used for publication and that the assets of the Company are safeguarded. As stated above, the Board has contractually delegated to external agencies the services the Company requires, but they are fully informed of the internal control framework established by each relevant service provider who have provided reasonable assurance on the effectiveness of internal financial controls.

Where controls reports were not coterminous with the Company's year end bridging letters were obtained. The Audit Committee also received papers in relation to the controls at the Custodian, Investment Manager and Investment Adviser.

The key procedures include monthly production of management accounts and NAV calculations, monitoring of performance at regular Board meetings, supervision by Directors of the valuation of securities, segregation of the administrative function from that of securities and cash custody and of both from investment management, maintenance of appropriate insurance and adherence to physical and computer security procedures. The Audit Committee received and reviewed control reports from the Company's Administrator and Registrar which contain reporting accountant's reports.

The Audit Committee considered the control observations noted within the external auditor's report. The control observation related to the valuation of unquoted investments, calculation of Indian capital gains taxes and the completeness of special dividends.

The Audit Committee discussed these observations with the relevant service providers and has requested the controls to be reviewed. The control observations did not result in a material misstatement for the year ended 30 June 2022.

The Statement of Directors' Responsibilities in respect of the accounts is on page 49 and a Statement of Going Concern is on page 31.

The Report of the Independent Auditor is on pages 51 to 61.

Financial statements and significant accounting matters

The Audit Committee reviewed the financial statements and considered the following significant accounting issues in relation to the Company's financial statements for the year to 30 June 2022:

Valuation and existence of investments

The Company holds its assets in quoted investments. The existence and valuation of these investments is the most material matter in the production of the financial statements. The Audit Committee reviewed the procedures in place for ensuring accurate valuation and existence of investments and discussed the valuation of the Company's investments at the year end with the Investment Manager and reviewed their existence with the Administrator and other service providers. Investments are valued using independent pricing sources by the Administrators and the holding quantities at the year end were agreed to the Company's custodian's records.

The Company also holds unquoted investments in the portfolio. The Investment Manager provided a valuation recommendation for the unquoted investments held at the year end which was discussed and approved by the Directors. The Investment Managers' valuation approach for investments in unlisted companies is described on page 80.

Recognition of income

Income may not be accrued in the correct period and/or incorrectly allocated to revenue or capital. The Audit Committee reviewed the Administrator's procedures for recognition of income and reviewed the treatment of any special dividends receivable in the period under review.

Calculation of performance fees

Incorrect amounts may be paid to the Investment Manager and recognised in the accounts if the fees are not calculated correctly. Performance fee calculations are circulated to the Directors prior to payment. The Audit Committee reviewed the procedures in place for the calculation of performance fees.

Tax status and Indian capital gains provision

The Company may suffer tax on gains on the realisation of investments if investment trust status is not maintained. The Audit Committee reviewed the compliance of the Company during the year with the eligibility conditions and ongoing requirements in order for investment trust status to be maintained.

The Indian capital gains tax provision represents an estimate of the amount of tax payable by the Company. Tax amounts payable may differ from this provision depending on when the Company disposes of investments. The Audit Committee reviewed the procedures in place for the calculation of Indian capital gains tax.

Going concern

The Audit Committee reviewed the Company's financial resources and concluded that it is appropriate for the Company's financial statements to be prepared on a going concern basis as described in the Directors' Report on page 31.

Conclusion with respect to the annual report and financial statements

The Audit Committee has concluded that the annual report for the year to 30 June 2022, taken as a whole, is fair, balanced and understandable and provides the information necessary for Shareholders to assess the Company's business model, strategy and performance. The Audit Committee has reported its conclusions to the Board of Directors. The Audit Committee reached this conclusion through a process of review of the document and enquiries to the various parties involved in the production of the annual report.

Audit tenure

Ernst & Young LLP was appointed as the Company's Auditor for the period ended 31 March 2019, with Sue Dawe as the lead audit partner. The audit partner responsible for the audit is to be rotated at least every five years in accordance with professional and regulatory standards in order to protect independence and objectivity and to provide fresh challenge to the business. In accordance with auditor rotation best practice, Sue Dawe will be replaced as Audit Partner for the year ending 30 June 2023. The appointment of the auditor is reviewed annually by the Committee and the Board and is subject to approval by Shareholders.

Ernst & Young LLP has confirmed that it believes it is independent within the meaning of regulatory and professional requirements and that the objectivity of the audit partner and staff is not impaired. Having carried out the review described below, the Committee is satisfied that the Auditor remains independent and effective for the purposes of this year's audit and, as such, has not considered it necessary to put the audit services contract out to tender. In accordance with FRC guidance in relation to the statutory audits of listed companies, the Company is required to put out to tender within ten years of the initial appointment of Ernst & Young LLP, this will be during the 2029 year end. There are no contractual obligations restricting the Committee's choice of external Auditor.

Effectiveness of external audit

The Audit Committee is responsible for reviewing the effectiveness of the external audit process. The Audit Committee received a presentation of the audit plan from the external Auditor prior to the commencement of the audit and a presentation of the results of the audit following completion of the main audit testing. Additionally, the Audit Committee received feedback from the Administrator regarding the effectiveness of the external audit process and the Audit Quality Inspection Report on Ernst & Young LLP issued by the FRC's Audit Quality Review Team (AQRT). Following the above review, the Audit Committee has agreed that

the re-appointment of the external Auditors should be recommended to the Board and the Shareholders of the Company.

Provision of non-audit services

The Audit Committee has put a policy in place on the supply of any non-audit services provided by the external Auditor. Such services are considered on a case-by-case basis and may only be provided to the Company if the provision of such services is at a reasonable and competitive cost and does not constitute a conflict of interest or potential conflict of interest which would prevent the external Auditor from remaining objective and independent.

Internal Audit

The Committee has considered the need for an internal audit function and considers that this is not appropriate given the nature and circumstances of the Company. The Committee keeps the need for an internal audit function under periodic review.

Jamie Skinner
Audit Committee Chairman

5 October 2022

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable laws and regulations.

The Companies Act 2006 (the "company law") requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the Company financial statements in accordance with UK-adopted international accounting standards.

Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company during and as at the end of the year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates, which are reasonable and prudent;
- present information including accounting policies and additional disclosures as required to ensure the report is presented in a manner that provides relevant, reliable, comparable and understandable information;
- state whether applicable UK-adopted international accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and which disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the accounts comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The accounts are published on the Company's website at <https://ashokaindiaequity.com>, which is maintained by the Investment Manager. The work carried out by the auditors does not involve consideration of the maintenance and integrity of this website and, accordingly, the auditors accept no responsibility for any changes that have occurred to the accounts since being initially presented on the website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Directors' confirmation statement

The Directors each confirm to the best of their knowledge that:

- (a) the financial statements, prepared in accordance with UK adopted international financial reporting standards in conformity with the requirements of the Companies Act 2006, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company as required by DTR 4.1.12R; and
- (b) this Annual Report comprising the Strategic Report and Governance Statements includes a fair review of the development and performance of the business and position of the Company, together with a description of the principal and emerging risks that it faces as required by DTR 4.1.8R and DTR 4.1.9R.

Having taken advice from the Audit Committee, the Directors consider that the Annual Report and financial statements taken as a whole is fair, balanced and understandable and provides the information necessary for Shareholders to assess the Company's performance, business model and strategy.

For and on behalf of the Board

Andrew Watkins
Chairman

5 October 2022

Opinion

We have audited the financial statements of Ashoka India Equity Investment Trust plc ("the Company") for the year ended 30 June 2022 which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Equity, Statement of Cash Flows and the related notes 1 to 17, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards.

In our opinion, the financial statements:

- give a true and fair view of the Company's affairs as at 30 June 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with UK adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard as applied to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

The non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company and we remain independent of the Company in conducting the audit.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Company's ability to continue to adopt the going concern basis of accounting included:

- We confirmed our understanding of the Company's going concern assessment process and discussed with the Directors and the Company Secretary those factors they considered important in their assessment. We considered whether the factors taken account of in the Directors' assessment addressed those matters which we considered important.
- We inspected the Directors' assessment of going concern, including the revenue forecast and liquidity assessment, for the period to 31 December 2023 which is at least twelve months from the date the financial statements were authorised for issue. In preparing the revenue forecast, the Company has concluded that it is able to continue to meet its ongoing costs as they fall due.
- We reviewed the factors and assumptions, including the impact of the COVID-19 pandemic and other significant events that could give rise to market volatility, as applied to the revenue forecast. We considered the appropriateness of the methods used to calculate the revenue forecast and the liquidity assessment and determined, through testing of the methodology and calculations, that the methods, inputs and assumptions utilised were appropriate to be able to make an assessment for the Company.

- We considered the mitigating factors included within the revenue forecasts that are within the control of the Company. We reviewed the Company's assessment of the liquidity of investments held and evaluated the Company's ability to sell those investments in order to cover working capital requirements.
- We reviewed the Company's going concern disclosures included in the annual report in order to assess that the disclosures were consistent with the financial statements and our understanding of the Company and in conformity with the reporting standards.

Based on the work we have performed, we have not identified any material uncertainties relating to events

or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for the period to 31 December 2023.

In relation to the Company's reporting on how they have applied the UK Corporate Governance Code, we have nothing material to add or draw attention to in relation to the directors' statement in the financial statements about whether the directors considered it appropriate to adopt the going concern basis of accounting.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

Overview of our audit approach

| | |
|-------------------|--|
| Key audit matters | <ul style="list-style-type: none"> • Risk of incorrect valuation or ownership of the investment portfolio and the resulting impact on the Statement of Comprehensive Income • Risk of incomplete or inaccurate revenue recognition, including classification of special dividends as revenue or capital in the Statement of Comprehensive Income |
| Materiality | <ul style="list-style-type: none"> • Overall materiality of £1.87m which represents 1% of net assets |

An overview of the scope of our audit

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the Company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the Company and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed.

Climate change

There has been increasing interest from stakeholders as to how climate change will impact Companies. The Company has determined that extreme weather events

could potentially impair the operations of individual investee companies, potential investee companies, their supply chains, and their customers. The Company also notes that climate change leads to additional costs and risks for portfolio companies. This is explained on page 14 in the principal and emerging risks section, which form part of the "Other information," rather than the audited financial statements. Our procedures on these disclosures therefore consisted solely of considering whether they are materially consistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appear to be materially misstated.

Our audit effort in considering climate change was focused on the adequacy of the Company's disclosures in the financial statements as set out in note 2 and

concluded that there was no further impact of climate change to be taken into account as the investments are valued based at fair value as required by UK adopted international accounting standards and unquoted investments are valued with reference to listed comparable companies and similarly reflect market participants' view of climate change risk. We also challenged the Directors' considerations of climate change in their assessment of viability and associated disclosures.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in our opinion thereon, and we do not provide a separate opinion on these matters.

| Risk | Our response to the risk | Key observations communicated to the Audit Committee |
|--|--|---|
| <p>Incorrect valuation or ownership of the investment portfolio and the resulting impact on the Statement of Comprehensive Income (refer to the Report of the Audit Committee set out on page 45 and the accounting policy set out on page 68).</p> <p>The valuation of the investment portfolio at 30 June 2022 was £183.36m (2021: £147.40m) consisting of quoted investments with an aggregate value of £178.00m (2021: £141.08m) and unquoted investments with an aggregate value of £5.36m (2021: £6.32m).</p> | <p>We performed the following procedures:</p> <p>We obtained an understanding of the processes and controls surrounding investment valuation, legal title, gains and losses and Indian capital gains taxes by performing walkthroughs in which we evaluated the design and implementation of controls.</p> <p>For all quoted investments in the portfolio, we compared the market prices and exchange rates applied to an independent pricing vendor and recalculated the investment valuations as at the year-end.</p> | <p>The results of our procedures identified no material misstatement in relation to the risk of incorrect valuation or ownership of the investment portfolio and the resulting impact on the Statement of Comprehensive Income.</p> |

| Risk | Our response to the risk | Key observations communicated to the Audit Committee |
|---|---|--|
| <p>The valuation of the assets held in the investment portfolio is the key driver of the Company's net asset value and total return. Incorrect investment pricing, or a failure to maintain proper legal title to the investments held by the Company could have a significant impact on the portfolio valuation and the return generated for Shareholders.</p> | <p>We inspected the stale pricing reports produced by the Administrator to identify prices that have not changed around the year end and verified whether the quoted price is a valid fair value.</p> <p>For the unquoted investments held as at the year-end we utilised our specialist valuations team to review and challenge the valuations. This included:</p> | |
| <p>The fair value of quoted investments is determined by reference to bid value on the relevant exchange. If bid value is unavailable, then the last trade price on the relevant exchange is used.</p> | <ul style="list-style-type: none"> • Reviewing the valuation papers prepared by the Manager for the year-end valuation; | |
| <p>Unquoted investments are valued at fair value by the Directors following a review of the valuations proposed by the Investment Manager. The unquoted investment policy applies methodologies consistent with the International Private Equity and Venture Capital Valuation guidelines ("IPEV").</p> | <ul style="list-style-type: none"> • Assessing whether the valuations have been performed in line with the IPEV guidelines; • Assessing the appropriateness of the data inputs and challenging the assumptions used to support the valuations; | |
| <p>The valuation of the unquoted investments, and the resultant impact on the unrealised gains/ (losses), is an area requiring judgement and estimation in the preparation of the financial statements.</p> | <ul style="list-style-type: none"> • Assessing other facts and circumstances, such as market movement and comparative Company information, that have an impact on the fair market value of the investments; and • Determining a fair value range for the valuation and assessing whether Management's valuation is reasonable. | |

| Risk | Our response to the risk | Key observations communicated to the Audit Committee |
|---|---|--|
| <p>The Company incurs Indian capital gains taxes on realised gains made from the investment portfolio and is also required to recognise a capital gains tax provision based on unrealised gains and relevant tax rates as at the year end. The capital gains tax provision as at 30 June 2022 was £3.03m (2021: £7.63m).</p> <p>Incorrect calculation of the capital gains tax provision could impact on the Company's net asset value.</p> | <p>We compared the Company's investment holdings at 30 June 2022 to an independent confirmation received directly from the Company's Custodian, testing any reconciling items to supporting documentation.</p> <p>We recalculated the total unrealised gains/losses on investments as at the year-end using the book-cost reconciliation.</p> <p>We recalculated the realised gains and losses arising on a sample of disposals and ensured the average cost method was consistently and correctly applied.</p> <p>We reviewed the application of Indian capital gains tax rates with reference to tax legislation and the length of investment ownership. We discussed and challenged the calculation with the Investment Manager and the Company tax advisor, as preparer of the calculation. We recalculated the Indian capital gains tax provision recognised at the year-end and agreed the inputs to the calculation to our audit workpapers including a sample of transaction details.</p> | |

| Risk | Our response to the risk | Key observations communicated to the Audit Committee |
|--|---|---|
| <p>Incomplete or inaccurate revenue recognition, including the classification of special dividends as revenue or capital in the Statement of Comprehensive Income (refer to the Report of the Audit Committee set out on page 45 and the accounting policy set out on page 69).</p> <p>The total revenue for the year to 30 June 2022 was £1.04m (2021: £0.63m), consisting of dividend income from quoted equity investments.</p> <p>The investment income receivable by the Company during the year directly affects the Company's revenue return. There is a risk of incomplete or inaccurate recognition of revenue through the failure to recognise proper income entitlements or to apply an appropriate accounting treatment.</p> <p>The Directors may be required to exercise judgment in determining whether income receivable in the form of special dividends should be classified as 'revenue' or 'capital' in the Statement of Comprehensive Income.</p> | <p>We performed the following procedures:</p> <p>We obtained an understanding of the processes and controls surrounding revenue recognition including the classification of special dividends by performing walkthrough procedures.</p> <p>For all dividends received, we recalculated the dividend income by multiplying the investment holdings at the ex-dividend date, traced from the accounting records, by the dividend per share, which was agreed to an independent data vendor. For a sample of dividends received we agreed amounts to bank statements and where applicable, agreed the exchange rates to an external source.</p> <p>For dividends accrued, we reviewed the investee Company announcements to assess whether the dividend obligations arose prior to 30 June 2022. We agreed the dividend rate to corresponding announcements made by the investee Company, recalculated the dividend amount receivable and confirmed this was consistent with cash received as shown on post year end bank statements, where paid.</p> | <p>The results of our procedures identified no material misstatement in relation to the risk of incomplete or inaccurate revenue recognition, including incorrect classification of special dividends as revenue or capital items in the Statement of Comprehensive Income.</p> |

| Risk | Our response to the risk | Key observations communicated to the Audit Committee |
|------|--|--|
| | <p>To test completeness of recorded income, we verified that dividends had been recorded for each investee Company held during the year with reference to investee Company announcements obtained from an independent data vendor.</p> <p>For all investments held during the year, we compared the type of dividends paid with reference to an external data source to identify those which were 'special'. We confirmed five special dividends were received during the year. We selected a sample of three special dividends received and confirmed that the classification of revenue for the payments was consistent with the underlying motives and circumstances for the payment.</p> | |

In the prior year, our auditor's report included a key audit matter in relation to the risk of incorrect calculation of the performance fee. In the current year this was removed from our key audit matter given no performance fees were accrued.

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for the Company to be £1.87 million (2021: £1.37 million), which is 1% (2021: 1%) of net assets. We believe that net assets provides us with materiality aligned to the users interests as it represents a key measurement of the Company's position.

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgement was that performance materiality was 75% (2021: 75%) of our planning materiality, namely £1.41m (2021: £1.02m). We have set performance materiality at this percentage due to our

experience from prior years and our assessment of the impact of any prior year errors.

Given the importance of the distinction between revenue and capital for investment trusts, we have applied a separate testing threshold for the revenue column of the Statement of Comprehensive Income of £0.09m (2021: £0.07m), being our reporting threshold.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Audit Committee that we would report to them all uncorrected audit differences in excess of £0.09m (2021: £0.07m), which is set at 5% of planning materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion the part of the directors' remuneration report to be audited has been properly prepared in accordance with the Companies Act 2006.

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
 - the financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns; or
 - certain disclosures of directors' remuneration specified by law are not made; or
 - we have not received all the information and explanations we require for our audit.
- Director's statement on whether it has a reasonable expectation that the group will be able to continue in operation and meets its liabilities set out on page 31;
 - Directors' statement on fair, balanced and understandable set out on page 47;
 - Board's confirmation that it has carried out a robust assessment of the emerging and principal risks set out on page 14;
 - The section of the annual report that describes the review of effectiveness of risk management and internal control systems set out on page 38; and
 - The section describing the work of the audit committee set out on page 45.

Corporate Governance Statement

We have reviewed the directors' statement in relation to going concern, longer-term viability and that part of the Corporate Governance Statement relating to the Company's compliance with the provisions of the UK Corporate Governance Code specified for our review by the Listing Rules.

Based on the work undertaken as part of our audit, we have concluded that each of the following elements of the Corporate Governance Statement is materially consistent with the financial statements or our knowledge obtained during the audit:

- Directors' statement with regards to the appropriateness of adopting the going concern basis of accounting and any material uncertainties identified set out on page 31;
- Directors' explanation as to its assessment of the Company's prospects, the period this assessment covers and why the period is appropriate set out on page 25;

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 49, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is

a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the Company and management.

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the Company and determined that the most significant are UK adopted International Accounting Standards, the Companies Act 2006, the Listing Rules, UK Corporate Governance Code, the Association of Investment Companies' Code and Statement of Recommended Practice, Section 1158 of the Corporation Tax Act 2010 and The Companies (Miscellaneous Reporting) Regulations 2018.
- We understood how the Company is complying with those frameworks through discussions with the Audit Committee and Company Secretary and review of Board minutes and the Company's documented policies and procedures.
- We assessed the susceptibility of the Company's financial statements to material misstatement, including how fraud might occur by considering the key risks impacting the financial statements. We identified fraud risks with respect to the incomplete or inaccurate income recognition through the incorrect classification of special dividends and incorrect valuation of the unquoted investments and the resulting impact on the unrealised gains/ (losses). Further discussion of our approach is set out in the section on key audit matters above.
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved a review of the reporting to the Directors with respect to the application of the documented policies and procedures and review of the financial statements to ensure compliance with the reporting requirements of the Company.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Other matters we are required to address

- Following the recommendation from the audit committee, we were appointed by the Company on 28 March 2019 to audit the financial statements for the period ending 30 June 2019 and subsequent financial periods.
- The period of total uninterrupted engagement including previous renewals and reappointments is four years, covering the periods ending 30 June 2019 to 30 June 2022.
- The audit opinion is consistent with the additional report to the audit committee.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

FINANCIAL STATEMENTS

62

Statement of Comprehensive Income

For the financial year ended 30 June 2022

| | Note | For the year ended 30 June 2022 | | | For the year ended 30 June 2021 | | |
|---|------|------------------------------------|------------------|----------------|------------------------------------|------------------|----------------|
| | | Revenue £'000 | Capital £'000 | Total £'000 | Revenue £'000 | Capital £'000 | Total £'000 |
| Gains on investments | 4 | - | 7,848 | 7,848 | - | 52,929 | 52,929 |
| Losses on currency movements | | - | (309) | (309) | - | (117) | (117) |
| Net investment gains | | - | 7,539 | 7,539 | - | 52,812 | 52,812 |
| Income | 5 | 1,040 | - | 1,040 | 628 | - | 628 |
| Total income | | 1,040 | 7,539 | 8,579 | 628 | 52,812 | 53,440 |
| Performance fees | 7 | - | - | - | - | (5,105) | (5,105) |
| Operating expenses | 8 | (832) | - | (832) | (511) | - | (511) |
| Operating profit before taxation | | 208 | 7,539 | 7,747 | 117 | 47,707 | 47,824 |
| Taxation | 9 | (202) | 1,679 | 1,477 | (62) | (7,408) | (7,470) |
| Profit for the year | | 6 | 9,218 | 9,224 | 55 | 40,299 | 40,354 |
| Earnings per Ordinary Share | 10 | 0.01p | 9.46p | 9.47p | 0.07p | 54.65p | 54.72p |

There is no other comprehensive income and therefore the 'Profit for the year' is the total comprehensive income for the year ended 30 June 2022.

The total column of the above statement is the profit and loss account of the Company. The supplementary revenue and capital columns, including the earnings per Ordinary Share, are prepared under guidance from the Association of Investment Companies.

All revenue and capital items in the above statement derive from continuing operations.

The notes on pages 66 to 83 form an integral part of these financial statements.

The notes on pages 66 to 83 form an integral part of these financial statements.

1. Reporting entity

Ashoka India Equity Investment Trust plc is a closed-ended investment company, registered in England and Wales on 11 May 2018. The Company's registered office is 6th Floor 125 London Wall, London, England, EC2Y 5AS. Business operations commenced on 6 July 2018 when the Company's Ordinary Shares were admitted to trading on the LSE. The financial statements of the Company are presented for the year from 1 July 2021 to 30 June 2022.

The Company primarily invests in securities listed on any stock exchange in India and can invest in the securities of companies with a significant presence in India that are listed on stock exchanges outside India.

2. Basis of preparation

Statement of compliance

These financial statements have been prepared in accordance with applicable law and the UK-adopted international accounting standards. The financial statements have been prepared on a historical cost basis, except for the measurement at fair value of investments.

When presentational guidance set out in the Statement of Recommended Practice ("SORP") for Investment Companies issued by the Association of Investment Companies ("the AIC") in July 2022 is consistent with the requirements of IFRS, the Directors have sought to prepare the financial statements on a basis compliant with the recommendations of the SORP.

In preparing these Financial Statements the Directors have considered the impact of climate change risk as a Principal and emerging risk as set out on page 14. In line with the UK-adopted international accounting standards, investments are valued at fair value, being primarily quoted prices for investments in active markets at the balance sheet date, and therefore reflect market participant's view of climate change risk. Unlisted investments, valued by reference to appropriate valuation techniques (see note 15 below), similarly reflect market participants' view of climate change risk.

Going concern

The Directors have concluded that there is a reasonable expectation that the Company will have adequate liquidity and cash balances to meet its liabilities as they fall due and continue in operational existence for the foreseeable future and continue as a going concern for the period to 31 December 2023. As such the Directors have adopted the going concern basis in preparing the financial statements.

Use of estimates and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The resulting accounting estimates and assumptions will, by definition, seldom equal the related actual results.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The Indian capital gains tax provision represents an estimate of the amount of tax payable by the Company. Tax amounts payable may differ from this provision depending on when the Company disposes of investments. The current provision for Indian capital gains tax is calculated based on the long-term or short-term nature of the investments and the applicable tax rate at the year end. Currently, the short-term tax rate is 15% and the long-term tax rate is 10%. The estimated tax charge is subject to regular review including a consideration of the likely period of ownership, tax rates and market valuation movements.

As disclosed in the statement of financial position, the Company made a capital gains tax provision as at 30 June 2022 of £3,029,000 (30 June 2021: £7,629,000) in respect of unrealised gains on investments held.

The Company's investments are denominated in Indian rupees. However, the Company's shares are issued in sterling and the majority of its investors are UK based. The Company's expenses and dividends are also paid in sterling. Therefore, the financial statements are presented in sterling, which is the Company's functional currency. All financial information has been rounded to the nearest thousand pounds.

The key estimate in the financial statements is the determination of the fair value of the unlisted investments by the Investment Manager for consideration by the Directors. This estimate is key as it significantly impacts the valuation of the unlisted investments at the year end. The fair valuation process involves estimation using subjective inputs that are unobservable (for which market data is unavailable). The key inputs considered in the valuation are described on page 80.

Fair value estimates are cross-checked to alternative estimation methods where possible to improve the robustness of the estimates. The risk of an over or under estimation of fair values is greater when methodologies are applied using more subjective inputs.

Basis of measurement

The financial statements have been prepared on the historical cost basis except for financial instruments at fair value through profit or loss, which are measured at fair value.

3. Accounting policies

(a) Investments

Listed investments

Changes in the fair value of investments held at fair value through profit or loss and gains or losses on disposal are included in the capital column of the Statement of Comprehensive Income within "gains/(losses) on investments".

Investments are derecognised on the trade date of their disposal, which is the point where the Company transfers substantially all the risks and rewards of the ownership of the financial asset.

Transaction costs directly attributable to the acquisition of investments at fair value through profit or loss are recognised under gains/(losses) on investments.

Unlisted investments

The Investment Manager unlisted investment valuation policy applies techniques consistent with the IPEV Guidelines.

The techniques applied are predominantly market-based approaches or discounted cash flows where appropriate forecasts can be done. The market-based approaches available under IPEV Guidelines are set out below and are followed by an explanation of how they are applied to the Company's unlisted portfolio:

- Multiples; and
- Industry Valuation Benchmarks.

The nature of the unlisted portfolio currently will influence the valuation technique applied. The valuation approach recognises that, as stated in the IPEV Guidelines, the price of a recent investment, if resulting from an orderly transaction, generally represents fair value as at the transaction date and may be an appropriate starting point for estimating fair value at subsequent measurement dates. However, consideration is given to the facts and circumstances as at the subsequent measurement date, including changes in the market or performance of the investee company. Milestone analysis is used where appropriate to incorporate the operational progress of the investee company into the valuation. Additionally, the background to the transaction must be considered. As a result, various Multiples-based techniques are employed to assess the valuations particularly in those companies with established revenues. Discounted cashflows are used where appropriate. An absence of relevant industry peers may preclude the application of the industry valuation benchmarks technique. All valuations are cross-checked for reasonableness by employing relevant alternative techniques.

(b) Foreign currency

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing on the dates of the transactions. At the date of each Statement of Financial Position, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on that date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Gains and losses arising on retranslation are included in the Statement of Comprehensive Income within the revenue or capital column depending on the nature of the underlying item. Foreign exchange movements on investments are included in the Statement of Comprehensive Income within "losses on currency" movements.

(c) Income from investments

Dividend income from shares is accounted for on the basis of ex-dividend dates. Overseas income is grossed up at the appropriate rate of tax.

Special dividends are assessed on their individual merits and may be credited to the Statement of Comprehensive Income as a capital item if considered to be closely linked to reconstructions of the investee company or other capital transactions. All other investment income is credited to the Statement of Comprehensive Income as a revenue item.

Interest on fixed income instruments is accounted on an accrual basis.

(d) Capital reserves

Profits or losses arising on the sale of investments and changes in fair value arising upon the revaluation of investments are credited or charged to the capital column of the Statement of Comprehensive Income and allocated to the capital reserve.

Company's redemption facility is subject to approval by the Board and as such the redemption facility does not represent a contractual obligation on the Company and the shares are accordingly classified as equity.

(e) Expenses

All expenses are accounted for on an accruals basis. Expenses are recognised through the Statement of Comprehensive Income as revenue items except that performance fees, if any, are payable directly by reference to the capital performance of the Company as per the Investment Management Agreement and are therefore charged to the Statement of Comprehensive Income as a capital item. No other management fees are payable.

(f) Cash and cash equivalents

Cash comprises cash at hand and demand deposits. For purposes of the statement of cash flows, cash equivalents, including bank overdrafts, are short-term, highly liquid investments that are readily convertible to known amounts of cash, are subject to insignificant risks of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

3. Accounting policies (continued)

(g) Taxation

Irrecoverable taxation on dividends is recognised on an accruals basis in the Statement of Comprehensive Income. Indian tax rates for dividends with ex-dividend dates post 1 April 2020 are subject to 20% withholding tax.

The tax charges on Indian capital gains taxes are shown in the Statement of Comprehensive Income, recognised on an accrual basis. The Company is not subject to UK capital gains tax.

Deferred taxation

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the statement of financial position liability method. Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Investment trusts which have approval as such under Section 1158 of the Corporation Tax Act 2010 are not liable for taxation on capital gains.

(h) Adoption of new IFRS standards

A number of new standards, amendments to standards and interpretations are effective for the annual periods beginning after 1 January 2022. None of these are expected to have a material impact on the measurement of the amounts recognised in the financial statements of the Company.

4. Investments held at fair value through profit or loss

(a) Investments held at fair value through profit or loss

| | As at 30 June 2022 | As at 30 June 2021 |
|-------------------------------|-----------------------|-----------------------|
| | £'000 | £'000 |
| Quoted investments in India | 177,998 | 141,076 |
| Unquoted investments in India | 5,363 | 6,323 |
| Closing valuation | 183,361 | 147,399 |

(b) Movements in valuation

| | As at 30 June 2022 | As at 30 June 2021 |
|---|-----------------------|-----------------------|
| | £'000 | £'000 |
| Opening valuation | 147,399 | 72,120 |
| Opening unrealised gains on investments | 46,121 | 6,841 |
| Opening book cost | 101,278 | 65,279 |
| Additions, at cost | 121,568 | 98,926 |
| Disposals, at cost | (68,544) | (62,927) |
| Closing book cost | 154,302 | 101,278 |
| Revaluation of investments | 29,059 | 46,121 |
| Closing valuation | 183,361 | 147,399 |

Transaction costs on investment purchases for the year ended 30 June 2022 amounted to £159,000 (30 June 2021: £142,000) and on investment sales for the financial year to 30 June 2022 amounted to £172,000 (30 June 2021: £121,000). As at year end £11.6 million (30 June 2021: £9.8 million) of investments were subject to lock in periods.

(c) Gains on investments

| | Year ended 30 June 2022 | Year ended 30 June 2021 |
|---|----------------------------|----------------------------|
| | £'000 | £'000 |
| Realised gains on disposal of investments | 25,241 | 11,041 |
| Transaction costs | (331) | (263) |
| Movement in unrealised (losses)/gains on investments held | (17,062) | 39,280 |
| Capital distributions received | - | 2,871 |
| Total gains on investments | 7,848 | 52,929 |

4. Investments held at fair value through profit or loss (continued)

Under IFRS 13 'Fair Value Measurement', an entity is required to classify investments using a fair value hierarchy that reflects the significance of the inputs used in making the measurement decision.

The following shows the analysis of financial assets recognised at fair value based on:

Level 1

Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Unobservable inputs for the asset or liability.

The classification of the Company's investments held at fair value is detailed in the table below:

| | As at 30 June 2022 | | | | As at 30 June 2021 | | | |
|---|--------------------|----------|--------------|----------------|--------------------|----------|--------------|----------------|
| | Level 1 | Level 2 | Level 3 | Total | Level 1 | Level 2 | Level 3 | Total |
| | £'000 | £'000 | £'000 | £'000 | £'000 | £'000 | £'000 | £'000 |
| Investments at fair value through profit and loss – Quoted investments in India | 177,998 | - | - | 177,998 | 141,076 | - | - | 141,076 |
| Unquoted investments in India | - | - | 5,363 | 5,363 | - | - | 6,323 | 6,323 |
| | 177,998 | - | 5,363 | 183,361 | 141,076 | - | 6,323 | 147,399 |

| | As at 30 June 2022 | As at 30 June 2021 |
|--|-----------------------|-----------------------|
| | £'000 | £'000 |
| Opening balance | 6,323 | - |
| Additions during the year | 5,416 | 6,323 |
| Conversion from level 3 to level 1 investments | (6,353) | - |
| Total losses for the year recognised in profit or loss | (23) | - |
| Closing balance | 5,363 | 6,323 |

As at year end, the Company had two unquoted investments. These are investment in Bikaji Foods International Limited for a total of 1,056,550 shares and investment in Veeda Clinical Research Ltd for a total of 680,790 shares.

Unquoted investments are valued by the Investment Manager in accordance with the International Private Equity and Venture Capital Valuation Guidelines 2018 (“IPEV”) guidelines. The Investment Manager applies techniques consistent with the IPEV. The key inputs considered in the valuation are described on page 80.

On November 2021, PB Fintech Ltd was listed in the Mumbai Stock Exchange and became a public company. On August 2021 MXC Solutions India Pvt Ltd was listed in the Mumbai Stock Exchange and became a public company with a new name Cartrade Tech Ltd. Both investments have been moved to level 1 from level 3 classification.

Financial assets and liabilities are held at fair value in the financial statements with the exception of short-term assets and liabilities where their carrying value approximates to fair value.

5. Income

| | Year ended 30 June 2022 | Year ended 30 June 2021 |
|--------------------------------|----------------------------|----------------------------|
| | £'000 | £'000 |
| Income from investments | | |
| Overseas dividends | 1,040 | 620 |
| Unfranked income | - | 8 |
| Total income | 1,040 | 628 |

6. Other payables

| | As at 30 June 2022 | As at 30 June 2021 |
|-----------------------------|-----------------------|-----------------------|
| | £'000 | £'000 |
| Accrued expenses | 203 | 86 |
| Total other payables | 203 | 86 |

7. Performance fees expense

| | Year ended 30 June 2022 | | | Year ended 30 June 2021 | | |
|--------------------------|-------------------------|---------|-------|-------------------------|---------|--------------|
| | Revenue | Capital | Total | Revenue | Capital | Total |
| | £'000 | £'000 | £'000 | £'000 | £'000 | £'000 |
| Performance fee expenses | - | - | - | - | 5,105 | 5,105 |

The Investment Manager does not receive a fixed management fee in respect of its portfolio management services to the Company. The Investment Manager will become entitled to a performance fee subject to the Company delivering excess returns versus the MSCI India IMI Index in the medium term. The performance fee will be measured over periods of three years (Performance Period), with the first period ending (approximately three years from 6 July 2018) on 30 June 2021. The performance fee in any Performance Period shall be capped at 12% of the time weighted average adjusted net assets during the relevant Performance Period.

The performance fee is calculated at a rate of 30% of the excess returns between adjusted NAV per share on the last day of the performance period and the MSCI India IMI Index (sterling) over the performance period, adjusted for the weighted average number of Ordinary Shares in issue during the performance period. The Performance Fee in respect of each Performance Period will be paid at the end of the three year period.

As at 30 June 2022, there was no performance fee payable to the Investment Manager (30 June 2021: £7.9 million, representing the full three year period).

8. Expenses

| | Year ended 30 June 2022 | Year ended 30 June 2021 |
|-----------------------------------|----------------------------|----------------------------|
| | £'000 | £'000 |
| Administration & secretarial fees | 158 | 136 |
| Auditor's remuneration* | | |
| – Statutory audit fee | 45 | 30 |
| Broker fees | 33 | 32 |
| Custody services | 30 | 20 |
| Directors' fees and expenses | 128 | 113 |
| Board trip to India costs** | 17 | – |
| Tax compliance and advice | 27 | 27 |
| Printing and public relations*** | 192 | 67 |
| Registrar fees | 18 | 15 |
| Legal Fees**** | 90 | 30 |
| UKLA and other regulatory fees | 10 | 10 |
| Other expenses***** | 84 | 31 |
| Total | 832 | 511 |

* Auditor's remuneration excludes VAT.

** Board trip to India costs relates to provision for proposed trip in 2023.

*** Increase is mainly due to the appointment of Kepler Partners LLP as research provider in 2022.

**** Movement is mainly due to increase in general meeting and legal costs.

***** Other expenses include LSE, KIID fees, Distribution fees, other license fees, bank charges and other miscellaneous fees.

9. Taxation

(a) Analysis of charge in the year:

| | Year ended 30 June 2022 | | | Year ended 30 June 2021 | | |
|--------------------------------------|-------------------------|----------------|----------------|-------------------------|--------------|--------------|
| | Revenue | Capital | Total | Revenue | Capital | Total |
| | £'000 | £'000 | £'000 | £'000 | £'000 | £'000 |
| Capital gains tax provision | 98 | 1,369 | 1,467 | - | 6,345 | 6,345 |
| Capital gains tax (credit)/expense | - | (3,048) | (3,048) | - | 1,063 | 1,063 |
| Indian withholding tax | 104 | - | 104 | 62 | - | 62 |
| Total tax charge for the year | 202 | (1,679) | (1,477) | 62 | 7,408 | 7,470 |

The Company is liable to Indian capital gains tax under Section 115 AD of the Indian Income Tax Act 1961. A tax provision on Indian capital gains is calculated based on the long term (securities held more than one year) or short term (securities held less than one year) nature of the investments and the applicable tax rate at the period end. The short-term tax rates are 15% and the long-term tax rates are 10%.

The Company's dividends are received net of 20% withholding tax. Of this 20% withholding tax charge, 10% is irrecoverable with the remainder being shown in the Statement of Financial Position as an asset due for reclaim.

(b) Factors affecting the tax charge for the year:

The effective UK corporation tax rate for the year is 19%. The tax charge differs from the charge resulting from applying the standard rate of UK corporation tax for an investment trust company. The differences are explained below:

| | Year ended | Year ended |
|---------------------------------------|----------------|--------------|
| | 30 June 2022 | 30 June 2021 |
| | £'000 | £'000 |
| Operating profit before taxation | 7,747 | 47,824 |
| UK Corporation tax at 19% (2021: 19%) | 1,472 | 9,086 |
| Effects of: | | |
| Indian capital gains tax provision | (1,679) | 7,408 |
| Gains on investments not taxable | (1,432) | (10,035) |
| Overseas dividends not taxable | (198) | (118) |
| Unutilised management expenses | 158 | 1,067 |
| Indian withholding tax | 202 | 62 |
| Total tax charge for the year | (1,477) | 7,470 |

The Company is not liable to UK Corporation tax on capital gains due to its status as an investment trust. The Company has an unrecognised deferred UK Corporation tax asset of £2,589,000 (2021: £1,809,000) based on the prospective UK corporation tax rate of 25% (2021: 19%). This asset has accumulated because deductible expenses exceeded taxable income for the year ended 30 June 2022. No asset has been recognised in the accounts because, given the composition of the Company's portfolio, it is unlikely that this asset will be utilised in the foreseeable future.

(c) Movements on the capital gains tax provision for the year

The capital gains tax provision represents an estimate of the amount of tax provisionally payable by the Company on direct investment in Indian equities. It is calculated based on the long-term or short-term nature of the investments and the unrealised gain thereon at the applicable tax rate at the year end. As of 30 June 2022, the Company made a capital gains tax provision of £3,029,000 (30 June 2021: £7,629,000) in respect of unrealised gains on investments held.

10. Earnings per Ordinary Share

| | Year ended 30 June 2022 | | | Year ended 30 June 2021 | | |
|-----------------------------|-------------------------|---------|--------------|-------------------------|---------|---------------|
| | Revenue | Capital | Total | Revenue | Capital | Total |
| Profit for the year (£'000) | 6 | 9,218 | 9,224 | 55 | 40,299 | 40,354 |
| Earnings per Ordinary Share | 0.01p | 9.46p | 9.47p | 0.07p | 54.65p | 54.72p |

Earnings per Ordinary Share is based on the profit for the year of £9,224,000 (30 June 2021: profit of £40,354,000) attributable to the weighted average number of Ordinary Shares in issue during the year ended 30 June 2022 of 97,433,268 (30 June 2021: 73,735,386). Revenue and capital profits are £6,000 (30 June 2021: revenue profit of £55,000) and £9,218,000 (30 June 2021: capital loss of £40,299,000) respectively.

11. Dividend

The Company's objective is to provide shareholder returns through capital growth with income being a secondary consideration. It should not be expected that the Company will pay a significant annual dividend, but the Board intends to declare such annual dividends as are necessary to maintain the Company's UK investment trust status. The Company generated a revenue profit in the year ended 30 June 2022, however the Investment Trust (Approved Company) (Tax) (Amendment) Regulations 2013 (SI 2013/1406) allows an investment trust with an accumulated deficit on revenue reserves brought forward, to utilise this against a current year profit in an accounting period. Therefore, the Directors do not recommend the payment of a final dividend in respect of the year.

12. Share capital

| | As at 30 June 2022 | | As at 30 June 2021 | |
|--|--------------------|--------------|--------------------|------------|
| | No. of shares | £'000 | No. of shares | £'000 |
| Allotted, issued and fully paid: | | | | |
| Redeemable Ordinary Shares of 1p each ("Ordinary Shares") | 107,567,672 | 1,076 | 85,958,888 | 860 |
| Total | 107,567,672 | 1,076 | 85,958,888 | 860 |

Ordinary Shares

On incorporation, the issued share capital of the Company was 1 Ordinary Share of £0.01.

During the year ended 30 June 2022, 22,590,042 Ordinary Shares (30 June 2021: 18,310,388) were issued and 981,258 Ordinary Shares were redeemed, with aggregate proceeds of £42,102,000 (30 June 2021: £25,855,000). As at the date of this Annual Report, the total number of Ordinary Shares in issue is 109,917,672.

The Ordinary Shares have attached to them full voting, dividend and capital distribution rights. They confer rights of redemption. The Company's special distributable reserve may also be used for share repurchases, both into treasury or for cancellation.

Management shares

In addition to the above, on incorporation the Company issued 50,000 Management Shares of nominal value of £1.00 each.

The holder of the Management Shares undertook to pay or procure payment of one quarter of the nominal value of each Management share on or before the fifth anniversary of the date of issue of the Management Shares. The Management Shares are held by an associate of the Investment Manager.

The Management Shares do not carry a right to attend or vote at general meetings of the Company unless no other shares are in issue at that time. The Management Shares have been treated as equity in accordance with IFRS.

13. Special distributable reserve

As indicated in the Company's prospectus dated 19 June 2018, following admission of the Company's Ordinary Shares to trading on the LSE, the Directors applied to the Court and obtained a judgement on 4 December 2018 to cancel the amount standing to the credit of the share premium account of the Company. The amount of the share premium account cancelled and credited to a special distributable reserve was £44,275,898. This reserve may also be used to fund dividend payments.

14. Net asset value ("NAV") per Ordinary Share

Net assets per ordinary share as at 30 June 2022 of £174.2p (30 June 2021: £158.9p) is calculated based on £187,386,000 (30 June 2021: £136,575,000) of net assets of the Company attributable to the 107,567,672 (30 June 2021: 85,958,888) Ordinary Shares in issue as at 30 June 2022.

15. Financial instruments and capital disclosures

(i) Market risks

The Company is subject to a number of market risks in relation to economic conditions in India. Further detail on these risks and the management of these risks are included page 14 in the Strategic report.

The Company's financial assets and liabilities comprised:

| | As at 30 June 2022 | | | As at 30 June 2021 | | |
|---|--------------------|----------------------|----------------|--------------------|----------------------|----------------|
| | Interest bearing | Non-interest bearing | Total | Interest bearing | Non-interest bearing | Total |
| | £'000 | £'000 | £'000 | £'000 | £'000 | £'000 |
| Investments | - | 183,361 | 183,361 | - | 147,399 | 147,399 |
| Total investment | - | 183,361 | 183,361 | - | 147,399 | 147,399 |
| Cash and cash equivalent | | 7,027 | 7,027 | | 7,447 | 7,447 |
| Short term debtors | - | 230 | 230 | - | 663 | 663 |
| Short term creditors | - | (203) | (203) | - | (11,305) | (11,305) |
| Other assets/(liabilities) | - | 7,054 | 7,054 | - | (3,195) | (3,195) |
| Total financial assets/(liabilities) | - | 190,415 | 190,415 | - | 144,204 | 144,204 |

Market price risk sensitivity

The effect on the portfolio of a 10.0% increase or decrease in market prices would have resulted in an increase or decrease of £18,336,000 (30 June 2021: £14,740,000) in the investments held at fair value through profit or loss at the year end, which is equivalent to 9.8% (30 June 2021: 10.8%) of the net assets attributable to equity holders. This analysis assumes that all other variables remain constant.

The Company's portfolio of unlisted level 3 investments is not necessarily affected by market performance, however the valuations may be affected by the performance of the underlying securities in line with the valuation criteria in note 15.

The unlisted securities sensitivity analysis recognises that the valuation methodologies employed involve different levels of subjectivity in their inputs. The valuations as at 30 June 2022 were primarily driven by the weighted average of Discounted Cash Flow (DCF) valuation, Market movement based valuation based on Index and Peer Group.

15. Financial instruments and capital disclosures (continued)

| Valuation Technique | Fair value of investments £'000 | Key variable input | Variable input sensitivity (%) | Positive impact £'000 | Negative impact £'000 |
|---|------------------------------------|---|--------------------------------|--------------------------|--------------------------|
| Weighted average of the following: | 5,363 | Expected future cash flows and equity discount rate/WACC; | 10% change in discount rates | 348 | 326 |
| 1. Discounted Cash Flow (DCF); | | Selection of Index used; and | | | |
| 2. Market movement based valuation based on Index; and | | Selection of comparable companies based on peer group. | | | |
| 3. Market movement based valuation based on Peer Group. | | | | | |

Key variable inputs

The variable inputs applicable to each broad category of valuation basis will vary dependent on the particular circumstances of each unlisted company valuation. An explanation of each of the key variable inputs is provided below and includes an indication of the range in value for each input, where relevant.

Expected future cash flows and equity discount rate/WACC

The expected future cash flows are calculated using the aggregate future operating revenue based on growth in existing and new products resulting from the investment's ongoing capex and expansion plans. Equity discount rate/WACC is calculated at 11%.

Selection of Index used

The selection of index is assessed based on the market comparable index to the Company. MSCI India IMI and S&P BSE 500 were used for the market movement-based valuation based on index.

Selection of comparable companies

The selection of comparable companies is assessed individually for each investment at the point of investment, and the relevance of the comparable companies is continually evaluated at each valuation. The key criteria used in selecting appropriate comparable companies are the industry sector in which they operate and the geography of the company's operations.

Application of valuation basis

Each investment is assessed and the valuation basis applied will vary depending on the circumstances of each investment. For those investments where a trading multiples approach can be taken, the methodology will factor in revenue, earnings or net assets as appropriate for the investment. Discounted cash flows will be considered where appropriate forecasts are available. The valuation will also consider any recent transactions, where appropriate.

Estimated sustainable earnings and cash flows

The selection of sustainable revenue or earnings and cash flows will depend on whether the company is sustainably profitable or not, and where it is not then sustainable revenues will be used in the valuation. The valuation approach will typically assess companies based on the last twelve months of revenue or earnings, as they are the most recent available and therefore viewed as the most reliable. Where a company has reliably forecasted earnings previously or there is a change in circumstance at the business which will impact earnings going forward, then forward estimated revenue or earnings may be used instead.

Application of liquidity discount

A liquidity discount may be applied either through the calibration of a valuation against the most recent transaction, or by application of a specific discount.

(ii) Liquidity risks

Liquidity risk is that the Company will not be able to meet its obligations when due. An analysis of the Company's portfolio that could be liquidated over different time periods as at the year end is shown below:

| | 30 June 2022 | 30 June 2021 |
|---------------------------------|--------------|--------------|
| | % | % |
| Within one to seven days | 88.8 | 87.8 |
| Between seven days to one month | 4.7 | 1.8 |
| Between one and three months | 1.1 | 2.2 |
| Greater than three months | 5.4 | 8.2 |
| Total | 100.0 | 100.0 |

Management of liquidity risks

The Company has a diversified portfolio which is readily realisable. The liquidity of the portfolio is reviewed regularly by the Investment Manager and the Board.

(iii) Currency risks

Although the Company's performance is measured in sterling, a high proportion of the Company's assets are denominated in Indian rupees. Change in the exchange rate between sterling and Indian rupees may lead to a depreciation of the value of the Company's assets as expressed in sterling and may reduce the returns to the Company from its investments.

15. Financial instruments and capital disclosures (continued)

Currency sensitivity

The below table shows the foreign currency profile of the Company.

Foreign currency risk profile

| | 30 June 2022 | | | 30 June 2021 | | |
|-------------------------|---------------------|-----------------------|-------------------------|---------------------|-----------------------|-------------------------|
| | Investment exposure | Net monetary exposure | Total currency exposure | Investment exposure | Net monetary exposure | Total currency exposure |
| | £'000 | £'000 | £'000 | £'000 | £'000 | £'000 |
| Indian rupees | 177,785 | 4,138 | 181,923 | 147,399 | (399) | 147,000 |
| Swedish Krona | 1,788 | - | 1,788 | - | - | - |
| US Dollar | 3,788 | 28 | 3,816 | - | - | - |
| Total investment | 183,361 | 4,166 | 187,527 | 147,399 | (399) | 147,000 |

Based on the financial assets and liabilities at 30 June 2022, and with all other variables remaining constant, if sterling had weakened/strengthened against the Indian rupee by 10%, the impact on the Company's net assets at 30 June 2022 would have been an increase/(decrease) in fair value as follows:

| | 30 June 2022 | | 30 June 2021 | |
|---------------|------------------------|------------------------|------------------------|------------------------|
| | Increase in Fair Value | Decrease in Fair Value | Increase in Fair Value | Decrease in Fair Value |
| | £'000 | £'000 | £'000 | £'000 |
| Indian rupees | 17,778 | (17,778) | 14,740 | (14,740) |
| Swedish Krona | 179 | (179) | - | - |
| US Dollar | 379 | (379) | - | - |

Management of currency risks

The Company's Investment Manager monitors the currency risk of the Company's portfolio on a regular basis. Foreign currency exposure is regularly reported to the Board by the Investment Manager.

The Board does not intend to use hedge currency risk using any sort of foreign currency transactions, forward transactions or derivative instruments.

(iv) Credit risks

Credit risk is the risk that the issuer of a financial instrument will fail to fulfil an obligation or commitment that it has entered into with the Company.

Cash and other assets are held by the custodian.

Management of credit risks

The Company has appointed Kotak Mahindra Bank Limited (“Kotak”) as its depository. The credit rating of Kotak was reviewed at the time of appointment and is reviewed on a regular basis by the Investment Manager and the Board.

The Investment Manager monitors the Company’s exposure to its counterparties on a regular basis and trades in equities are performed on a delivery versus payment basis. Impairment assessment based on an expected credit loss model is not considered material to the Company.

At 30 June 2022, the Depository held £177,998,000 (30 June 2021: £147,399,000) in respect of quoted investments and £7,027,000 (30 June 2021: £7,447,000) in respect of cash on behalf of the Company.

(v) Capital management policies and procedures

The Company considers its capital to consist of its share capital of Ordinary Shares of 1p each, Management Shares of £1 each, and reserves totalling £187,386,000 (30 June 2021: £136,575,000).

The Company is not subject to any externally imposed capital requirements.

The Investment Manager and the Company’s Broker monitor the demand for the Company’s shares and the Directors review the position at Board meetings.

16. Related party transactions

Performance fees payable to the Investment Manager are disclosed in Note 7.

White Oak Capital Partners provides investment advisory services to the Investment Manager and no fees are paid to them from the Company.

Since commencement of operations on 6 July 2018 fees were payable at an annual rate of £35,000 to the Chairman, £27,500 to the Chair of the Audit Committee, and £25,000 to the other Directors. From 1 July 2021 fees were payable at an annual rate of £40,000 to the Chairman, £32,500 to the Chair of the Audit Committee, and £27,500 to the other Directors.

The Directors had the following shareholdings in the Company, all of which are beneficially owned.

| | As at 30 June 2022 | As at 30 June 2021 |
|-----------------|-----------------------|-----------------------|
| Andrew Watkins | 94,425 | 94,425 |
| Jamie Skinner | 84,733 | 75,023 |
| Rita Dhut | 81,733 | 74,425 |
| Dr Jerome Booth | 66,202 | 54,839 |

17. Post balance sheet events

As announced on 5 September 2022, the total number of Ordinary Shares in respect of redemption requests were received for this Redemption Point was 124,374. All of which were immediately placed with buyers by the Company’s corporate broker. The NAV per share of the Company has increased by 17.4% from 30 June 2022 to 3 October 2022.

OTHER INFORMATION

Alternative Performance Measures

Alternative Performance Measures 30 June 2022

Ordinary share price to NAV premium

The amount, expressed as a percentage, by which the share price is more than the Net Asset Value per Ordinary Share.

| | | Page | As at 30 June 2022 | As at 30 June 2021 |
|--------------------------------|---|------|--------------------------|--------------------------|
| NAV per Ordinary Share (pence) | a | 2 | 174.2 | 158.9 |
| Share price (pence) | b | 2 | 175.0 | 162.5 |
| Premium | | | 0.5% | 2.3% |
| | | | (b÷a)-1 | |

Ongoing charges

A measure, expressed as a percentage of average net assets, of the regular, recurring annual costs of running an investment company.

| | | Page | Year ended 30 June 2022 | Year ended 30 June 2021 |
|------------------------|---|------|-------------------------------|-------------------------------|

|--|--|
| AIC | Association of Investment Companies |
| Alternative Investment Fund or "AIF" | An investment vehicle under AIFMD. Under AIFMD (see below) the Company is classified as an AIF. |
| Alternative Investment Fund Managers Directive or "AIFMD" | A European Union directive which came into force on 22 July 2013 and has been implemented in the UK. |
| Annual General Meeting or "AGM" | A meeting held once a year which Shareholders can attend and where they can vote on resolutions to be put forward at the meeting and ask directors questions about the company in which they are invested. |
| Alternative Performance Measures "APMs" | Financial measures of historical or future financial performance, financial position, or cash flows, other than a financial measure defined or specified in the applicable financial reporting framework. |
| Custodian | An entity that is appointed to safeguard a company's assets. |
| Discount | The amount, expressed as a percentage, by which the share price is less than the net asset value per share. |
| DTR | Disclosure Guidance and Transparency Rule. |
| Dividend | Income receivable from an investment in shares. |
| Ex-dividend date | The date from which you are not entitled to receive a dividend which has been declared and is due to be paid to Shareholders. |
| Financial Conduct Authority or "FCA" | The independent body that regulates the financial services industry in the UK. |
| Gearing | A way to magnify income and capital returns, but which can also magnify losses. A bank loan is a common method of gearing. |
| IFRS | International Financial Reporting Standards. |
| Index | A basket of stocks which is considered to replicate a particular stock market or sector. |
| Investment Company | A company formed to invest in a diversified portfolio of assets. |
| Investment Trust | An investment company which is based in the UK and which meets certain tax conditions which enables it to be exempt from UK corporation tax on its capital gains. The Company is an investment trust. |

| | |
|---|---|
| Liquidity | The extent to which investments can be sold at short notice. |
| London Stock Exchange or “LSE” | The primary stock exchange in the United Kingdom and the largest in Europe. |
| Management Shares | Non-redeemable Management Shares of £1.00 each in the capital of the Company held. |
| MSCI India IMI | The MSCI India Investable Market Index measures the performance of the large, mid and small cap segments of the Indian market. It is used by the Company as a comparative performance measure. |
| Net assets or net asset value (“NAV”) | An investment company’s assets less its liabilities. |
| NAV per Ordinary Share | Net assets divided by the number of Ordinary Shares in issue. |
| Ongoing charges | A measure of the regular, recurring annual costs of running an investment company, expressed as a percentage of average net assets. |
| Ordinary Shares | Redeemable ordinary shares of £0.01 each in the capital of the Company. |
| Principles for Responsible Investment Initiative “PRI” | Principles for Responsible Investment is a United Nations-supported international network of investors working together to implement its six aspirational principles, often referenced as “the Principles”. |
| Portfolio | A collection of different investments held in order to deliver returns to Shareholders and to spread risk. |
| Premium | The amount, expressed as a percentage, by which the share price is more than the net asset value per share. |
| Redemption Point | The date and time at which all redemption requests and relevant documentation for annual redemption of Ordinary Shares must be received by the Company’s Registrar from Shareholders. |
| Redemption Price | The price at which shares in the Company are redeemed from Shareholders. |
| Relative Performance | Measurement of returns relative to an index. |
| Share buyback | A purchase of a company’s own shares. Shares can either be bought back for cancellation or held in treasury. |
| Share price | The price of a share as determined by a relevant stock market. |

Total return

A measure of performance that takes into account both income and capital returns. This may take into account capital gains, dividends, interests and other realised variables over a given period of time.

Treasury shares

A company's own shares which are available to be sold by a company to raise funds.

Volatility

A measure of how much a share moves up and down in price over a period of time.

Notice of Meeting

Notice is hereby given that the Annual General Meeting of Ashoka India Equity Investment Trust plc will be held at the offices of Stephenson Harwood, 1 Finsbury Circus, London EC2M 7SH, United Kingdom on 8 December 2022 at 10:45 a.m. for the following purposes:

To consider and if thought fit pass the following resolutions of which resolutions 1 to 11 will be proposed as ordinary resolutions and resolutions 12 to 14 will be proposed as special resolutions.

Ordinary Resolutions

1. To receive and adopt the Company's Annual Report and Accounts for the year ended 30 June 2022, with the reports of the Directors and Auditor thereon.
2. To approve the Directors' Remuneration Policy.
3. To approve the Directors' Remuneration Report included in the Annual Report for the year ended 30 June 2022.
4. To re-elect Andrew Watkins as a Director of the Company.
5. To re-elect Dr Jerome Booth as a Director of the Company.
6. To re-elect Rita Dhut as a Director of the Company.
7. To re-elect Jamie Skinner as a Director of the Company.
8. To re-appoint Ernst & Young LLP as Auditor to the Company, to hold office from the conclusion of this meeting until the conclusion of the next Annual General Meeting at which accounts are laid before the Company.
9. To authorise the Directors to fix the remuneration of the Auditor until the conclusion of the next Annual General Meeting of the Company.
10. To approve the Dividend Policy included in the Annual Report for the year ended 30 June 2022.
11. That the Directors be and are hereby generally and unconditionally authorised in accordance with section 551 of the Companies Act 2006 (the "Act") (in addition to any subsisting authorities to the extent unused) to exercise all the powers of the Company to allot up to 21,983,534 ordinary shares of 1 penny each in the capital of the Company ("Ordinary Shares") (equivalent to 20% of the Ordinary Shares in issue at the date of this notice of Annual General Meeting), such authority to expire (unless previously varied, revoked or renewed by the Company in general meeting) at the conclusion of the Annual General Meeting of the Company to be held in 2023 or, if earlier, on the expiry of 15 months from the passing of this resolution, save that the Company may, at any time prior to the expiry of such authority, make an offer or enter into an agreement which would or might require the allotment of shares in pursuance of such an offer or agreement, and the Directors may allot Ordinary Shares in pursuance of such offer or agreement as if such authority had not expired.

Special Resolutions

12. That, subject to the passing of Resolution 11 above, the Directors be and are hereby empowered (pursuant to sections 570 and 573 of the Act) to allot Ordinary Shares and to sell Ordinary Shares from treasury for cash pursuant to the authority referred to in Resolution 11 above as if section 561 of the Act did not apply to any such allotment or sale, such power to expire (unless previously varied, revoked or renewed by the Company in general

- meeting) at the conclusion of the Annual General Meeting of the Company to be held in 2023 or, if earlier, on the expiry of 15 months from the passing of this resolution, save that the Company may, at any time prior to the expiry of such power, make an offer or enter into an agreement which would or might require equity securities to be allotted or sold from treasury after the expiry of such power, and the Directors may allot or sell from treasury equity securities in pursuance of such an offer or an agreement as if such power had not expired.
13. That the Company be and is hereby generally and unconditionally authorised in accordance with section 701 of the Act to make market purchases (within the meaning of section 693(4) of the Act) of its Ordinary Shares, provided that:
- a) the maximum number of Ordinary Shares hereby authorised to be purchased shall be 16,476,659 (representing 14.99 per cent of the Company's issued Ordinary Share capital (excluding shares held in treasury) at the date of this notice of Annual General Meeting);
 - b) the minimum price (exclusive of any expenses) which may be paid for an Ordinary Share is 1 penny.
 - c) the maximum price (excluding expenses) which may be paid for an Ordinary Share is not more than the higher of (i) 5 per cent. above the average of the mid-market values of the Ordinary Shares for the five business days before the purchase is made; and (ii) the higher of the price of the last independent trade and the highest current independent bid for the Ordinary Shares;
 - d) the authority hereby conferred shall expire at the conclusion of the Annual General Meeting of the Company in 2023 or, if earlier, on the expiry of 15 months from the passing of this resolution, unless such authority is renewed prior to such time; and
 - e) the Company may make a contract to purchase Ordinary Shares under the authority hereby conferred prior to the expiry of such authority, which will or may be executed wholly or partly after the expiration of such authority and may make a purchase of Ordinary Shares pursuant to any such contract.
14. That a general meeting of the Company other than an Annual General Meeting may be called on not less than 14 clear days' notice, provided that this authority shall expire at the conclusion of the Company's next Annual General Meeting after the date of the passing of this resolution.

By order of the Board

Brian Smith

For and on behalf of
Sanne Fund Services (UK) Limited
Company Secretary

5 October 2022

6th Floor,
125 London Wall, London,
England, EC2Y 5AS

Notes to the notice of Annual General Meeting

Website address

1. Information regarding the meeting, including the information required by section 311A of the Companies Act 2006, is available from www.ashokaindiaequity.com.

Entitlement to attend and vote

2. Only those holders of Ordinary Shares registered on the Company's register of members at close of business on 6 December 2022 or, if this meeting is adjourned, at close of business on the day two days (excluding non-working days) prior to the adjourned meeting, shall be entitled to attend and vote at the meeting.

Appointment of Proxies

3. Members entitled to attend, speak and vote at the meeting (in accordance with Note 2 above) are entitled to appoint one or more proxies to attend, speak and vote in their place. If you wish to appoint a proxy please use the Form of Proxy enclosed with this document or follow the instructions at note 6 below if you wish to appoint a proxy through the CREST electronic proxy appointment service. In the case of joint members, only one need sign the Form of Proxy. The vote of the senior joint member will be accepted to the exclusion of the votes of the other joint members. For this purpose, seniority will be determined by the order in which the names of the members appear in the register of members in respect of the joint shareholding. The completion and return of the Form of Proxy will not stop you attending and voting in person at the meeting should you wish to do so. A proxy need not be a member of the Company. You may appoint more than one proxy provided each proxy is appointed to exercise the rights attached to a different share or shares held by you. If you choose to appoint multiple proxies use a separate copy of the Form of Proxy (which you may photocopy) for each proxy, and indicate after the proxy's name the number of shares in relation to which they are authorised to act (which, in aggregate, should not exceed the number of Ordinary Shares held by you). Please also mark the box to indicate that the proxy instruction is one of multiple appointments being made. All forms must be signed and returned in the same envelope.
4. You can appoint the Chairman of the Meeting, or any other person, as your proxy. If you wish to appoint someone other than the Chairman, cross out the words 'the Chairman of the Meeting' on the Form of Proxy and insert the full name of your appointee.
5. You can instruct your proxy how to vote on each resolution by marking inside the 'For' and 'Against' boxes with an 'X' as appropriate (or entering the number of shares which you are entitled to vote). If you wish to abstain from voting on any resolution please mark the box which is marked 'Vote Withheld' with an 'X'. It should be noted that a vote withheld is not a vote in law and will not be counted in the calculation of the proportion of votes 'For' and 'Against' a resolution. If you do not indicate on the Form of Proxy how your proxy should vote, he/she can exercise his/her discretion as to whether, and if how so how, he/she votes on each resolution, as he/she will do in respect of any other business (including amendments to resolutions) which may properly be conducted at the meeting.

A company incorporated in England and Wales or Northern Ireland should execute the Form of Proxy under its common seal or otherwise in accordance with Section 44 of the Companies Act 2006 or by signature on its behalf by a duly authorised office or attorney whose power of attorney or other authority should be enclosed with the Form of Proxy.

Appointment of Proxy using Hard Copy Form

6. The Form of Proxy and any power of attorney (or a notarially certified copy or office copy thereof) under which it is executed must be received by Computershare Investor Services PLC, The Pavilions, Bridgwater Road, Bristol, BS99 6ZY at 10.45 am on 6 December 2022 in respect of the meeting. Any Forms of Proxy received before such time will be deemed to have been received at such time. In the case of an adjournment, the Form of Proxy must be received by Computershare no later than 48 hours before the rescheduled meeting.

On completing the Form of Proxy, sign it and return it to Computershare at the address shown on the Form of Proxy in the envelope provided. As postage has been pre-paid no stamp is required.

Appointment of Proxy through CREST

7. CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service may do so for the meeting to be held on the above date and any adjournment(s) thereof by using the procedures described in the CREST Manual. CREST Personal Members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.

In order for a proxy appointment or instruction made using the CREST service to be valid, the appropriate CREST message (a 'CREST Proxy Instruction') must be properly authenticated in accordance with Euroclear UK & International Limited's specifications and must contain the information required for such instructions, as described in the CREST Manual. The message, regardless of whether it constitutes the appointment of a proxy or an amendment to the instruction given to a previously appointed proxy, must, in order to be valid, be transmitted so as to be received by the Company's agent (ID: 3RA50) by the latest time(s) for receipt of proxy appointments specified in the notice of meeting.

For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the Company's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time any change of instructions to a proxy's appointee through CREST should be communicated to the appointee through other means.

CREST members and, where applicable, their CREST sponsors or voting service providers should note that Euroclear UK & International Limited does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.

All messages relating to the appointment of a proxy or an instruction to a previously appointed proxy, which are to be transmitted through CREST, must be lodged at 10.45am on 6 December 2022 in respect of the meeting. Any such messages received before such time will be deemed to have been received at such time. In the case of an adjournment, all messages must be lodged with Computershare no later than 48 hours before the rescheduled meeting.

Termination of proxy appointments

8. In order to revoke a proxy instruction you will need to inform the Company. Please send a signed hard copy notice clearly stating your intention to revoke your proxy appointment to Computershare, Investor Services PLC, The Pavilions, Bridgwater Road, Bristol, BS99 6ZY.

In the case of a member which is a company, the revocation notice must be executed under its common seal or otherwise in accordance with section 44 of the Companies Act 2006 or by signature on its behalf by an office or attorney whose power of attorney or other authority should be included with the revocation notice.

Once a proxy has been lodged, it can be amended up to the meeting. If you attempt to revoke your proxy appointment but the revocation is received after the time specified in note 2 above then, subject to the paragraph directly below, your proxy will remain valid.

Completion of a Form of Proxy will not preclude a member from attending and voting in person. If you have appointed a proxy and attend the meeting in person, your proxy appointment will be automatically terminated.

If you submit more than one valid proxy appointment in respect of the same Ordinary Shares, the appointment received last before the latest time for receipt of proxies will take precedence.

Nominated Persons

9. If you are a person who has been nominated under section 146 of the Companies Act 2006 to enjoy information rights:
 - You may have a right under an agreement between you and the member of the Company who has nominated you to have information rights (Relevant Member) to be appointed or to have someone else appointed as a proxy for the meeting.
 - If you either do not have such a right or if you have such a right but do not wish to exercise it, you may have a right under an agreement between you and the Relevant Member to give instructions to the Relevant Member as to the exercise of voting rights.
 - Your main point of contact in terms of your investment in the Company remains the Relevant Member (or, perhaps, your custodian or broker) and you should continue to contact them (and not the Company) regarding any changes or queries relating to your personal details and your interest in the Company (including any administrative matters). The only exception to this is where the Company expressly requests a response from you.
 - If you are not a member of the Company but you have been nominated by a member of the Company to enjoy information rights, you do not have a right to appoint any proxies under the procedures set out in the notes to the form of proxy.

Questions at the meeting

10. Under section 319A of the Companies Act 2006, the Company must answer any question you ask relating to the business being dealt with at the meeting unless:
- answering the question would interfere unduly with the preparation for the meeting or involve the disclosure of confidential information;
 - the answer has already been given on a website in the form of an answer to a question; or
 - it is undesirable in the interests of the Company or the good order of the meeting that the question be answered.

Issued Shares and total voting rights

11. As at the date of this Notice, the total number of shares in issue is 109,917,672 Ordinary Shares of 1p each and no shares are held in treasury. The total number of Ordinary Shares with voting rights is 109,917,672. On a vote by a show of hands, every holder of Ordinary Shares who (being an individual) is present by a person, by proxy or (being a corporation) is present by a duly authorised representative, not being himself a member, shall have one vote. On a poll every holder of Ordinary Shares who is present in person or by proxy shall have one vote for every Ordinary Share held by him.

Communication

12. Except as provided above, members who have general queries about the meeting should use the following means of communication (no other methods of communication will be accepted):
- Calls to the Computershare shareholder helpline on 0370 703 6077 cost no more than a national rate from any type of phone or provider. If in doubt you should check with your phone line provider as to the exact cost involved for you to call this number. Lines are open 8.30am to 5.30pm, Monday to Friday excluding bank holidays; or
 - in writing to Computershare Investor Services PLC, The Pavilions, Bridgwater Road, Bristol, BS99 6ZZ.

You may not use any electronic address provided either in this notice of meeting or in any related documents (including the Form of Proxy for this meeting) to communicate with the Company for any purposes other than those expressly stated.

I/We _____

of _____

(BLOCK CAPITALS PLEASE)

being (a) member(s) of Ashoka India Equity Investment Trust plc appoint the Chairman of the meeting,

or (see note 1) of _____

as my/our proxy and, on a poll, to vote for me/us on my/our behalf at the Annual General Meeting of the Company

Please indicate with an 'X' in the spaces provided how you wish your votes to be cast on the resolutions specified.

| Resolution | For | Against | Withheld | Discretionary |
|--|------------|----------------|-----------------|----------------------|
| 1. To receive and adopt the Company's Annual Report and Accounts. | | | | |
| 2. To approve the Directors' Remuneration Policy. | | | | |
| 3. To approve the Directors' Remuneration Report. | | | | |
| 4. To re-elect Andrew Watkins as a Director of the Company. | | | | |
| 5. To re-elect Dr Jerome Booth as a Director of the Company. | | | | |
| 6. To re-elect Rita Dhut as a Director of the Company. | | | | |
| 7. To re-elect Jamie Skinner as a Director of the Company. | | | | |
| 8. To re-appoint Ernst & Young LLP as Auditor to the Company. | | | | |
| 9. To authorise the Directors to fix the remuneration of the Auditor. | | | | |
| 10. To approve the Dividend Policy included in the Annual Report for the year ended 30 June 2022. | | | | |
| 11. To give authority to allot new shares. | | | | |
| 12. To give authority to allot new shares free from pre-emption rights. | | | | |
| 13. To give authority for the Company to purchase its own shares. | | | | |
| 14. To authorise calling general meetings (other than Annual General Meetings) on 14 clear days' notice. | | | | |

Subject to any voting instructions so given the proxy will vote, or may abstain from voting, on any resolution as he may think fit.

Signature _____ Dated this _____ day of _____ 2022
